

This algicide is formulated to help prevent swimming pool water from being treated with normal chlorine. It is especially effective against growth of algae and bacteria in water. It also improves pool water clarity and sparkle. The algicide offers benefits of this algicide tends to reduce the need for additional chlorine.

This algicide is compatible with all chemicals normally used in swimming pool maintenance. However, in its concentrated form, this chemical should not come into contact with high concentrations of chlorine. DO NOT MIX THIS ALGICIDE AND CHLORINE TOGETHER when adding to the pool. These materials should be handled separately.

This algicide is chemically efficient, stable.

DIRECTIONS

For an initial application use one gallon of this algicide per 25,000 gallons of water. Use one quart per 50,000 gallons of water every 10 to 15 days, depending on weather and other factors. Clear the pool before application.

For maintenance of swimming pools, add one quart of this algicide per 50,000 gallons of water every 10 to 15 days. For pools with a capacity of more than 50,000 gallons, the appropriate amount of this algicide should be poured liberally into the pool. More maintenance will be achieved by adding one quart of this algicide to the pool every 10 to 15 days. For pools with a capacity of less than 50,000 gallons, add one quart of this algicide to the pool every 10 to 15 days.

CHEMACIDE ALGICIDE CONCENTRATE

Active Ingredients:

Ax. 10% (4.58) C₁₆H₂₈N₂O₂ 14.51
dimethyl benzyl ammonium chloride 14.51

Inert Ingredients:

DANGER

KEEP OUT OF REACH OF CHILDREN
(See side panel for additional precautions and First Aid Statement)

Rinse empty container thoroughly with water and discard.

This product is toxic to fish. To avoid irritation to fish, do not charge water in a swimming pool with this product. Do not use water.

For more information, call 1-800-368-7777.

TO DETERMINE POOL CAPACITY

Rectangular Pools — Measure length, width, and depth of pool. Multiply length by width by depth by 7.5 to determine pool capacity in gallons.

Round and Oval Pools — Measure length, width, and depth of pool. Multiply length by width by depth by 3.14 by 7.5 to determine pool capacity in gallons.

ACCEPTED

JUN 27 1975

Under the Federal Insecticide, Fungicide, and Herbicide Act, as amended, for the pesticide registered under EPA Reg. No. 12393-3
