

CEASE

HOW TO APPLY: Use a sprayer which will distribute the required amount evenly over the area to be treated. Use a coarse spray to reduce drift. Application may be made when top growth is dense, but better control will be obtained when weeds are short or when excess growth is mowed and removed before applying.

WHEN TO APPLY: Best results will be obtained if applied shortly before or at the time plant growth begins. Rain or thorough watering after application will cause the material to move to the root zone and thus speed up control.

NOTE: Do Not apply, allow to drift or drain or flush equipment onto or near croplands, lawns, trees or other desirable plants or to areas where their roots may extend. Do Not contaminate irrigation ditches or water used for domestic purposes. Do Not allow contact with fertilizers, insecticides, fungicides or seeds. Application equipment should be thoroughly cleaned with a detergent and water to prevent corrosion. Do Not contaminate water by cleaning of equipment, or disposal of wastes. HOW TO APPLY: Use a pump sprayer or backpack sprayer to apply CEASE evenly over the area to be treated. This will help to reduce drift. Apply CEASE on a calm day when the wind is light but better than no wind. Do not apply CEASE if the wind is blowing directly at you or if the wind is blowing from the side.

WHEN TO APPLY: CEASE can be applied at any time of day, before or at the time of planting, or after the plants are growing. After application, watering will help the CEASE to get into the soil and thus speed up control.

NOTE: Do Not apply CEASE to drift or drain on bush equipment or in or near croplands, lawns, trees, or other desirable plants. Do not use CEASE in ditches or waterways or on roads or highways. Do not use CEASE with fertilizers, insecticides, or other chemicals. Application equipment should be thoroughly cleaned with a detergent and water to prevent corrosion. Do Not contaminate water by cleaning of equipment or disposal of wastes. Equipment which has been used to apply this product should not be used for applying insecticides, herbicides, or other chemicals.
