- CONTAINER DISPOSAL**
 - Triple rinse (or equivalent) and: offer for recycling, reconditioning, or disposal in an approved landfill, or bury in a safe place.
 - For containers of 30 gallons capacity or more proceed as in 'a' above or reseal container and offer for reconditioning.
- GENERAL**
Consult federal, state, or local disposal authorities for approved alternative procedures.

For use in hotels, motels, homes, seed houses, horse stables, and non-food areas of institutions, packaging and processing plants.

Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

FOR PROFESSIONAL USE

NON-RESIDUAL SPACE SPRAY INSECT KILLER

A synthetic pyrethroid for controlling flying and crawling insects. May be used as a space or contact spray.

ACTIVE INGREDIENTS

(5-Benzyl-3-furylmethyl-2,2-dimethyl-3-(2-methylpropenyl)cyclopropylcarbamate)	0.25%	W/W
Related compounds	0.04%	
Aromatic petroleum hydrocarbons	0.01%	
Petroleum distillate	99.12%	

INERT INGREDIENTS

0.03%
100.00%

TC S trans isomers ratio: max 30% (cis), min 70% (trans) • U.S. Patent No. 3,465,007

KEEP OUT OF REACH OF CHILDREN

HAZARDS TO HUMANS

CAUTION

Harmful if swallowed. Do not get in eyes. Avoid contact with skin. Avoid breathing mist.

PRACTICAL TREATMENT

In case of contact, immediately flush skin and eyes with plenty of water for at least 15 minutes. For skin and eyes call a physician.

Carefully read additional precautionary statements on side panels.

NON-RESIDUAL SPACE SPRAY INSECT KILLER

DIRECTIONS FOR USE

See left panel for additional information.
CONTACT SPRAY APPLICATION

For control of the following pests:
Houseflies, Mosquitoes, Gnats, Earwigs, Spiders, Ants, Fleas, Ticks, and other flying and crawling insects.

Use a fine spray with the nozzle directed toward the upper corners of the room so that the entire room will be filled with the spray. To avoid staining of surfaces place the spray nozzle at least five feet from objects.

For control of the following pests:
Houseflies, Mosquitoes, Gnats, Earwigs, Spiders, Ants, Fleas, Ticks, and other flying and crawling insects.

For control of the following pests:
Houseflies, Mosquitoes, Gnats, Earwigs, Spiders, Ants, Fleas, Ticks, and other flying and crawling insects.

First remove infested grain from the area. Destroy. Avoid contamination of the grain and foodstuffs in the area by removing the grain. Using a large droplet size spray, spray directly on exposed stages and other areas and devices where grain insects may be present.

When applying in homes dispose of all infested products. Shelves and drawers should first be cleaned, then thoroughly sprayed so as to contact all pests, and then covered with shelf paper after drying. Any utensils that are contacted by the spray should be washed before using. Repeat application as necessary.

SPACE SPRAY APPLICATIONS

For control of the following:
Houseflies, Mosquitoes, Gnats

ROOM PREPARATION: Close off room or area to be treated. Turn off air conditioning and ventilating systems and seal all open vents. Cover or remove all food. Remove all fish, birds, or other pets.

APPLICATION: Apply undiluted as a very fine mist space spray at the rate of 5 FLUID OUNCES PER 5,000 CUBIC FEET. Use manually operated equipment or an electrically powered fogger. Direct the fine spray mist toward the upper corners of the room so that the entire room will be filled with the spray. To avoid staining of surfaces place the spray nozzle at least five feet from objects.

Leave the room closed for one half hour. Ventilate thoroughly before re-entry or allowing pets back into the area. Sweep up and destroy fallen insects.
