

LICO 25 Laundry Bacteriostat-Sanitizer, is based on a highly active mixture of three Twin Chain quaternary ammonium compounds.

Soiled and contaminated fabrics such as diapers, hospital and institutional linen, and athletic equipment is of major housekeeping concern not only in hospitals but in institutions, hotels, restaurants, and schools. Used as directed, LICO 25 provides effective residual bacteriostatic and self-sanitizing properties for laundered items such as diapers, hospital and institutional linens, and athletic equipment. For residual bacteriostatic or self-sanitizing activity conditions of high relative humidity or wet contamination are required. LICO 25 is designed for commercial and institutional laundry use by addition to the final rinse step. Laundered fabric may also be treated by soaking in a solution of LICO 25. For recommended solution concentration, see Use Directions.

LICO 25 Laundry Bacteriostat-Sanitizer, is economical to use because it is concentrated. It should be handled with care.

DANGER:

Keep out of reach of Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

AND OTHER PRECAUTIONS.

USE-DIRECTIONS

For residual bacteriostatic or self-sanitizing properties, use LICO 25 as directed.

—For residual bacteriostatic activity against *Klebsiella pneumoniae*, aberrant, ATCC No. 4352 and *Staphylococcus aureus* ATCC No. 6538, use 0.56 fluid oz. (3½ teaspoons) per 100 lbs of fabric (dry weight).

—For residual self-sanitizing activity against *Klebsiella pneumoniae*, aberrant, ATCC No. 4352 and *Staphylococcus aureus* ATCC No. 6538, use 0.56 fluid oz. (3½ teaspoons) per 100 lbs. of fabric (dry weight).

Dilute the appropriate amount of LICO 25 in one to two gallons of water; then add to the washwheel in the final rinse.

Retreat fabric after each washing.

Do not reuse empty drums. Return to drum conditioner or rinse well with soap solution and discard. Do not contaminate water by disposal of waste.
