

OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

WASHINGTON, D.C. 20460

September 25, 2026

Cindy Valla
Regulatory Specialist
ZECO LLC D/B/A ZEE COMPANY
Electronic Transmittal: cindy.valla@vincitgroup.com

Subject: PRIA Label and CSF Amendment –Revised the precautionary statements, revising Basic CSF
Product Name: LO-FOAM CONCENTRATE
EPA Registration Number: 12446-20007
Received Date: 12/19/2022
Action Case Number: 00420057

Dear Ms. Valla:

The amended label and CSF referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Please note that the record for this product currently contains the following CSF:

- Basic CSF dated 08/19/2026

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Jake McFarley by phone at 202-817-5615, or via email at mcfarley.jake@epa.gov.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jake McFarley".

Jake McFarley, Senior Regulatory Advisor
Regulatory Management Branch I
Antimicrobials Division (7510P)
Office of Pesticide Programs

Enclosure: Master Label

LO-FOAM CONCENTRATE

A CONCENTRATED LOW-FOAMING IODOPHOR
FOR FORMULATING USE ONLY

ACTIVE INGREDIENT:

Iodine* 13.30%
INERT INGREDIENTS 86.70%
Total 100.00%

* From Butoxy polypropoxy polyethoxy ethanol-iodine complex and
Polyethoxy polypropoxy polyethoxy ethanol-iodine complex

EPA Reg No. 12446-20007

EPA Est. No. _____

KEEP OUT OF REACH OF CHILDREN
MANTENER FUERA DEL ALCANCE DE LOS NIÑOS
DANGER PELIGRO
CORROSIVE

[See [left] [back] [side] [inside] [panel] [of label] for additional
precautionary statements]

*Note to Reviewer: In accordance with 40 CFR 156.68(d), all first aid
statements, as prescribed, will appear on the front panel of the label.*

FIRST AID:

IF IN EYES:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing. Call a Poison Control Center or doctor for treatment advice.
IF ON SKIN:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.
IF SWALLOWED:	Call a Poison Control Center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give Anything by mouth to an unconscious person.
IF INHALED:	Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a Poison Control Center or doctor for treatment advice.

Have product container or label with you when calling a Poison Control Center or doctor or going in for treatment. You may also contact 1-800-424-9300 for emergency treatment information.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

PRECAUTIONARY STATEMENT:

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, coveralls worn over long-sleeved shirt and long pants, socks, and chemical-resistant footwear. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS: Contact with aluminum, copper, or brass may generate hydrogen gas. May evolve iodine fumes when heated.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Consult Safety Data Sheet before using.

Only for formulation into Environmental Sanitation Products for the following uses: No-rinse sanitizers, disinfectants, and uses for which US EPA has accepted the required data and/or citations of data that the formulator has submitted in support of registration and use for Experimental Purposes that are in compliance with US EPA requirements.

See Manufacturing Instructions for specific dilutions.

NOTE TO FORMULATOR: Mix well in drum before sampling and before each use.

Preheat water to approximately 122°F (50°C). While mixing, slowly add LO-FOAM CONCENTRATE, which has been warmed to about 100°F (38°C). If the product fails to go into solution, stop adding LO-FOAM CONCENTRATE. Continue mixing until product goes into solution. Resume addition with mixing. At room temperature, LO-FOAM CONCENTRATE is quite viscous. Whenever possible, the entire contents of a drum should be used at one time to facilitate uniform unloading. If the manufacture of batches using partial drums of LO-FOAM CONCENTRATE is unavoidable or if the product has been exposed to low temperatures, the drum contents should be gradually warmed to about 100°F (38°C). Then roll the drum for about 10 minutes on drum roller before use to ensure uniformity of the concentrate.

STORAGE AND DISPOSAL:

PESTICIDE STORAGE: Keep container closed when not in use. Do not store below 0°F for extended periods.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of pesticide wastes or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple-rinse (or equivalent) promptly after emptying.

5 Gallon or Less Container: Triple-rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.

Capacity greater than 5 gallon containers: Triple-rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water. Replace and tighten closures. Tip container to its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.
