MOLD RESISTANT • WATERPROOF

ACTIVE INGREDIENT
INERT INGREDIENTS

Diphacinone (2-diphenylacetyl-1,3-indandione)

.005%

99.995%

TOTAL 100.000%

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

(see below for additional precautions)

DIRECTIONS: Place "RODENT CAKE" in locations where rats and mice are accustomed to feed, travel, drink or live. Place bait in secluded corners, along walls, under cover where rats and mice feel safe to feed.

RATS: Place at least 2 RODENT CAKES in areas where rats are accustomed to feed unobserved. Assure an uninterrupted supply of bait for a period of not less than 15 days and continue baiting until all signs of feeding have stopped.

MICE: Break "RODENT CAKE" into 4 pieces and place at 4 to 10 ft. intervals where mice are active. Assure an uninterrupted supply for a period of not less than 15 days.

CAUTION

Baits should be placed in areas not accessible to children, pets, wildlife and domestic animals or placed in tamperproof bait boxes.

If swallowed by humans, pets, wildlife or domestic animals, this material may reduce the clotting ability of the blood and cause bleeding. In such cases, intravenous and oral administration of Vitamin K combined with blood transfusions are indicated as in the case of hemorrhage caused by overdoses of bishydroxycoumarin. In case of ingestion, call a physician.

DO NOT REUSE CONTAINER. DESTROY WHEN EMPTY.
