

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY WASHINGTON, D.C. 20460

OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

JUL 1 1 2008

John Lublinkhof Bell Laboratories, Inc. 3699 Kinsman Blvd. Madison, WI 53704

Subject: Label Notifications for Pesticide Registration Notice 2007-4

Dear Mr. Lublinkhof,

The Agency is in receipt of your Applications for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated May 19, 2008 for the following products:

Ditrac® All-Weather Cake	(EPA Registration Number 12455-5)
Ditrac [®] Super Size Blox	(EPA Registration Number 12455-14)
ZP® Tracking Powder	(EPA Registration Number 12455-16)
ZP® Rodent Bait	(EPA Registration Number 12455-18)
Gopha Rid®	(EPA Registration Number 12455-30)
Quintox® Rat and Mouse Bait	(EPA Registration Number 12455-39)
Quintox® Mouse Seed	(EPA Registration Number 12455-57)
Liqua-Tox II	(EPA Registration Number 12455-61)
Talpirid	(EPA Registration Number 12455-101)

The Registration Division (RD) has conducted its review of these requests for their applicability under PRN 2007-4 and finds that the label changes requested fall within the scope of PRN 2007-4. The labels submitted with the application have been stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by nonnotification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please call me directly at 703-305-6249 or Steve Schaible of my staff at 703-308-9362.

Sincerely,

Linda Arrington Notifications & Minor Formulations Team Leader Registration Division (7505P) Office of Pesticide Programs

Section II (Explanation)

Notification of label change per PR Notice 2007-4. This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statements to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Please see attached label incorporating the changes. The changes are highlighted in gray in the Storage and Disposal section.

Gopha-Rid®

NOTIFICATION

KILLS GOPHERS and MOLES

JUL 1 1 2008

ACTIVE INGREDIENT:	
Zinc Phosphide (CAS #1314-84-7)	2%
INERT INGREDIENTS:	_98%
TOTAL	100%

KEEP OUT OF REACH OF CHILDREN CAUTION

FIRST AID				
Have label with you when obtaining treatment advice, including 1-877-854-2494.				
	is applying zinc phosphide products and experiencing signs and symptoms such as			
1	lominal pain, tightness in the chest, or weakness, should be seen by a physician			
immediatel				
If	* Call a poison control center or doctor immediately for treatment advice or transport the			
swallowed	patient to the nearest hospital.			
	* Do not drink water.			
	* Do not administer anything by mouth or induce vomiting unless told to do so by the			
	poison control center or doctor.			
If on skin	* Take off contaminated clothing.			
or clothing	* Rinse skin immediately with plenty of water for 15 – 20 minutes.			
	* Call a poison control center or doctor immediately for treatment advice.			
If	* Move person to fresh air.			
inhaled	* If person is not breathing, call an ambulance, then give artificial respiration, preferably			
	mouth-to-mouth, if possible.			
	* Call a poison control center or doctor immediately for treatment advice.			
If in eyes	* Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.			
	* Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.			
	* Call a poison control center or doctor immediately for treatment advice.			

See Back/Side Panel for additional precautionary statements.

NET WEIGHT: 5 oz. - 1 lb. (142 g to 454 g)

Manufactured by:

EPA REG. NO. 12455-30 EPA EST. NO. 12455-WI-1

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use only for sites, pests, and application methods described on this label.

USE RESTRICTIONS: For use against pocket gophers and moles in lawns, golf courses, and other noncrop areas. Do not apply in gardens and areas where food or feed may be contaminated. Only apply the bait underground. Collect and bury all dead animals found above the ground. This product is to be used in manual applications only. Do not apply this product by use of an artificial burrow builder.

SPECIFIC DIRECTIONS FOR POCKET GOPHERS: Burrowing pocket gophers (<u>Thomomys</u> spp. and <u>Geomys</u> spp.) throw out low, fan shaped mounds on either side of their underground tunnels. These lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. Using a long-handled spoon, carefully remove the plug. Insert one teaspoonful of GOPHA-RID as far down as possible. Replace opening, being careful not to cover bait with soil.

SPECIFIC DIRECTIONS FOR MOLES: The presence of moles may be indicated by a network of surface ridges in the turf, by a series of conical mounds of earth pushed up from deep burrows, or by damage to bulbs.

Surface Ridges: Prior to treatment, determine which burrows are active according to one of the following two methods. Either press down a small section of the tunnel or remove a one-inch section of the tunnel's roof. Mark these sections and recheck in 24 hours. The burrow is considered active if the flattened runway has been raised up or if the roof has been repaired. Only treat active burrows.

Carefully punch a hole in the top of active tunnels, drop a teaspoonful amount of GOPHA-RID and carefully close the hole with sod or stone. Do not collapse the runway again or allow loose soil to cover the bait. After a few days check to see if the burrows are still active according to one of the two methods described above. If so, repeat treatment.

Conical Mounds: Remove center plug from the conical mounds with a long-handled spoon and drop a teaspoonful amount of GOPHA-RID in the underground tunnel. Close opening with rock or sod. Do not allow loose dirt to cover bait.

Bulb Protection (Fall planted): Pack about one-quarter inch of soil against each bulb. Place several teaspoons of baits at side of and around the bulb and then cover.

NOTICE: It is a Federal offense to use any pesticide in a manner that results in the death of a member of an endangered species. The use of this product may pose a hazard to Federally designated endangered/threatened species. Suggested measures to protect endangered species in your county may exist in an EPA "Interim Measures" pamphlet. You may call EPA's Endangered Species Hotline, 1-800-447-3813, to find out if an "Interim Measures" pamphlet exists for your county and have one sent to you. You can also consult your local county extension office or pesticide state lead agency to determine whether they have imposed any requirements in your area to protect endangered and threatened species.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Keep away from humans, domestic animals and pets. Harmful if swallowed, absorbed through the skin, inhaled, or in eyes. Do not breathe dust. If bait is handled, wear gloves. Wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet. Avoid contamination of feed and foodstuffs. Avoid contact with acids. Wash all utensils, spoons, or measuring devices thoroughly after using.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

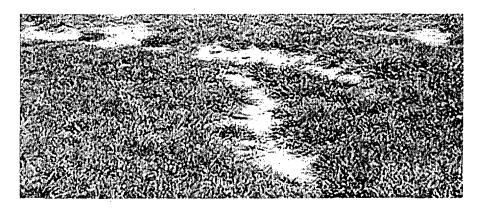

DISPOSAL: If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. If partially filled: Place in trash or call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
