Pelleted Confrac Rat and Mouse Bait
EPA Registration No. 12455-35
Confrac Rat and Mouse Bait
EPA Registration No. 12455-36
Your Letters of September 8, 1983

The amendment referred to above, submitted in connection with registration under FIFRA is acceptable, provided that you:

1. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
 - a. Format your "Use Restrictions" as follows:

USE RESTRICTIONS:

For control of Norway rats, Roof rats and House mice in the following two areas:

Urban areas: May be used in and around the periphery of homes, industrial, commercial, and public buildings. May also be used in alleys. Do not use in sewers.

Non-urban areas: May be used inside of homes only.

For both areas treated baits must be placed in tamper-proof boxes or in locations not accessible to children, pets, domestic animals or wildlife. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

2. Submit five (5) copies of your final printed labeling before you ~~release the product for shipment.~~

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Keep away from humans, domestic animals and pets. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. If swallowed, call a physician at once.
NOTE TO PHYSICIAN: If ingested, administer Vitamin K, Intramuscularly or orally as indicated in bishydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds.

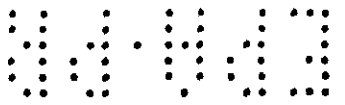

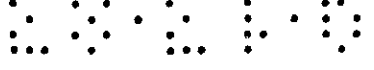

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store only in original container, in a dry place inaccessible to children and pets.

DISPOSAL: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by state and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

DIRECTIONS FOR USE
GENERAL USE CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
USE RESTRICTIONS: For control of Norway rats and mice in and around the periphery of homes, schools, and public buildings located in urban areas. Do not use in alleys located in urban areas. Do not use in parks. CONTRAC may also be used inside trains, aircraft) and in and around related ports.
Treated baits must be placed in locations not accessible to pets, domestic animals, wildlife or in tamper-resistant areas.
Don't place bait in areas where there's a possibility of food or surfaces that come in direct contact with humans.
SELECTION OF TREATMENT AREAS: Determine areas where rats and/or mice will most likely find and consume bait. These areas are along walls, by gnawed openings, in corners and concealed places, beneath structures, in locations where rodents or their signs are present. Remove as much food as possible.

APPLICATION DIRECTIONS

Each CONTRAC Cake consists of a one pound cake broken into sixteen 1 oz. pieces.
RATS: Break and place 3 to 16 pieces of CONTRAC (15 to 30 feet) per placement. Maintain a continuous supply of fresh bait for 10 days or until signs of activity.
HOUSE MICE: Break and place 1 piece of CONTRAC (8 to 12 feet) per placement. Two pieces may be used in areas of very high mouse activity. Maintain an unlimited supply of fresh bait for 15 days or until signs of mouse activity.
Replace contaminated or spoiled bait immediately. Dispose of unconsumed bait and dead rodents in accordance with the Container Disposal paragraph. To prevent contamination of food, water, and harborage as much as possible, occur repeat treatment. Where a continuous infestation is present, establish permanent bait stations with CONTRAC.
