	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)		
NAME OF PESTICIDE PRODUCT Quintox rat and mouse bait		

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Bell Laboratories
 3699 Kinsman Boulevard
 Madison, WI 53704

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with the provisions of Section 3(c)(7)(C) of the Act, since you have agreed that:

A. You will submit the data listed below according to the following schedule:

Type of Submission	Deadline for Submission
1. Laboratory Tests Completed but not Submitted & Details on Experimental Program	December 1, 1984
2. All Outstanding Laboratory Tests	January 1, 1985
3. Acceptable Field Tests	
a. First Interim Report	May 1, 1985
b. Second Interim Report	September 1, 1985
c. Final Report	January 1, 1986

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL _____ DATE _____

- B. You will submit and/or cite all data required for registration/reregistration of your product under FIFRA Section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
- C. You will submit production information (pounds produced) for this product for the fiscal year in which this product is conditionally registered, in accordance with Section 29 of FIFRA. The fiscal year begins October 1 and ends September 30. The production information will be submitted to the Agency no later than November 15, following the end of the preceding fiscal year. This information should be submitted to:

Registration Support and Emergency Response Branch
Registration Division (TS-767)
Environmental Protection Agency
Washington, D.C. 20460

Make the following label changes before you release the product for shipment:

1. For all labeling add the phrase "Open pack and" before the beginning of your rat and mouse directions.
2. For the 2 ounce container label only, add the following sentence to the end of the rat directions: "This box contains sufficient bait for 1 or 2 rats."

Submit five (5) copies of your final labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA Section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

William H. Miller
Product Manager 16

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:

Treated baits must be placed in locations not accessible to children, pets, domestic animals, wildlife or placed in tamper-proof bait stations. Do not place baits in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

For control of Norway rats, Roof rats, and House mice in and around homes, industrial, commercial, agricultural, poultry buildings, and similar manmade structures. QUINIOX may also be used inside transport vehicles (ships, trains, aircraft) and in and around related port or terminal buildings.

SELECTION OF TREATMENT AREAS:

Identify areas where rats and/or mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls or in locations where rodents or their signs have been observed. Protect bait from rain or snow. Remove as much food as possible.

APPLICATION DIRECTIONS

RATS: Apply 2 to 8 ounces of bait (usually at intervals of 15 to 30 feet) per placement. Maintain an uninterrupted supply of fresh bait for 10 days or until signs of rat activity cease.

HOUSE MICE: Apply 1/4 to 1/2 ounce of bait at intervals of 8 to 12 feet per placement. Larger placements (up to 1 ounce) may be needed at points of high mouse activity. Maintain an uninterrupted supply of fresh bait for 10 days or until all signs of mouse activity cease.

RATS & MICE: Replace contaminated or spoiled bait immediately.

Collect and dispose of all dead animals and unconsumed bait properly. To prevent reinfestation, eliminate food, water, and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish bait as needed.

LEFT PANEL

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS

CAUTION: Keep away from humans, domestic animals and pets.

STATEMENT OF PRACTICAL TREATMENT: If swallowed drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Avoid use of all oils.

NOTICE TO PHYSICIAN: If serum calcium levels are elevated treatment with Calcitonin is effective in reducing calcium to normal levels. Continue monitoring serum calcium and treat as necessary - hypercalcemia (Reference, AMA Drug Evaluations, Third Edition (1977), Chapter 16, pp. 248-251).

ENVIRONMENTAL HAZARDS

Keep out of lakes, streams, or ponds.

STORAGE AND DISPOSAL

STORAGE: Store only in original container, in a dry place inaccessible to children and pets.

DISPOSAL: Do not reuse empty container. Securely wrap in newspaper and discard in trash.
