Attention: Mr. Craig A. Riekema

Subject: ZP® Rodent Bait Place Pacs
EPA Reg. No. 12455-59
Your amended application of September 19, 2003

Purpose The purpose of this submission is to revise your label in accordance with PR Notice 2001 and make other labeling changes.

Label review The labeling submitted with the above letter, under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) is acceptable, provided you submit one (1) copy of final printed labeling to us, with the following changes, before you ship your product.

1. Revise your "PRECAUTIONARY STATEMENTS" according to Enclosure 1.
2. Consider changing "PESTICIDE STORAGE" to "STORAGE".

A copy of the stamped label is enclosed for your records.

Existing stocks Stocks of existing labels may be used for eighteen (18) months.

Consequence for non-compliance If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Questions If you have questions about this letter, please contact me at 703-305-5407 (by phone), 703-305-6596 (by fax), or peacock_dan@epa.gov (by E-Mail).

Sincerely yours,

Daniel B. Peacock, Biologist
Insecticide-Rodenticide Branch
Registration Division (7504C)

Letter Dan Peacock, Disk133,A:\Zinc Phosphide-Final\12455-59, revised label,
12-9-2003.wpd

Enclosure 1. Suggested Precautionary Text for EPA Reg. No. 12455-59

FIRST AID	
<p>Have label with you when obtaining treatment advice, including 1-877-854-2494.</p> <p>Any persons applying zinc phosphide products and experiencing signs and symptoms such as nausea, abdominal pain, tightness in the chest, or weakness, should be seen by a physician immediately.</p>	
<p>If swallowed</p>	<ul style="list-style-type: none"> •Call a poison control center or doctor immediately for treatment advice or transport the patient to the nearest hospital. •Do not drink water. •Do not administer anything by mouth or induce vomiting unless told to do so by the poison control center or doctor.
<p>If on skin or clothing</p>	<ul style="list-style-type: none"> •Wash with plenty of soap and water.
<p>If inhaled</p>	<ul style="list-style-type: none"> •Move person to fresh air. •If person is not breathing, call an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. •Call a poison control center or doctor immediately for treatment advice.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Keep away from humans, domestic animals and pets. Harmful if swallowed. Do not breathe dust. Avoid contamination of feed or foodstuffs. Avoid contact with acids. Wash all utensils, spoons, or measuring devices thoroughly after using.

Personal Protective Equipment (PPE)

All handlers, including anyone who retrieves carcasses and unused bait, must wear gloves.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco or using the toilet.

Environmental Hazards

ZP[®] Rodent Bait

Place Pacs

KILLS RATS, MICE AND GOPHERS

ACTIVE INGREDIENT:

Zinc Phosphide (CAS #1314-84-7) 2%

INERT INGREDIENTS:..... 98%

TOTAL 100%

ACCEPTED
with **COMMENTS**
in EPA Letter Dated:

DEC 10 2003

KEEP OUT OF REACH OF CHILDREN

CAUTION

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

FIRST AID

HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE 12455-59
IF SWALLOWED:

•Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

•Do not drink water.

•Do not induce vomiting unless told to do so by the poison control center or doctor.

IF ON SKIN:

•Wash with plenty of soap and water.

NOTE TO PHYSICIAN OR VETERINARIAN

Any persons applying zinc phosphide products and experiencing symptoms such as nausea, abdominal pain, tightness in the chest, or weakness, should be seen by a physician immediately.

NET CONTENTS: 100 x 7.5 g Place Pacs

Manufactured by:

Bell Laboratories, Inc.
Madison, WI 53704 U.S.A.

EPA REG. NO. 12455-59 EPA EST. NO. 12455-WI-1

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions.

IMPORTANT: Do not expose children, pets, or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait used to control rats and mice in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from bait stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears, other potentially destructive animals, or in areas prone to vandalism.
3. Apply bait used to control pocket gophers directly into their underground tunnels.
4. Dispose of product container, and unused, spoiled, and unconsumed bait as specified on this label.

RATS AND MICE

USE RESTRICTIONS: Use against the Norway rat, Roof rat and the House mouse in and around homes, industrial, agricultural and commercial buildings, and similar man-made structures. Do not place Place Pacs in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. When used in USDA-inspected facilities, this product must be applied in tamper-resistant bait stations.

SELECTION OF TREATMENT AREAS: After removing as much food, water and harborage as possible, determine dry, acid-free areas where rats and mice will most likely find and consume the bait. Generally these areas are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rats and mice or their signs have been observed.

APPLICATION DIRECTIONS FOR RATS: Apply 1 Place Pac (usually at intervals of 15 to 30 feet) per placement. For outdoor use, place bait in active rat burrows or tamper-resistant bait stations. Maintain an uninterrupted supply of fresh bait until all signs of feeding have stopped. Do not treat the same area with Place Pacs at less than 30 day intervals.

APPLICATION DIRECTIONS FOR MICE: Apply 1 Place Pac per placement at 8 to 12 foot intervals. For outdoor use, place bait in tamper-resistant bait stations. Maintain an uninterrupted supply of fresh bait until all signs of feeding have stopped. Do not treat the same area with Place Pacs at less than 30 day intervals. Collect and dispose of all dead animals and excess bait properly.

POCKET GOPHERS

USE RESTRICTIONS: Use against pocket gophers in rangeland and cropland (grain fields, forage crops, hay and alfalfa crops and vegetable crops). May also be used in

6/6

forest areas, parks, nurseries, lawns, golf courses, around homes, and other noncrop areas. Only apply the bait underground. Collect and bury all dead animals found above the ground.

APPLICATION DIRECTIONS FOR POCKET GOPHERS: Use one of the following baiting methods for controlling pocket gophers.

PLUG REMOVAL BAITING: Burrowing pocket gophers (Thomomys spp. and Geomys spp.) throw out low, fan shaped mounds on either side of their underground tunnel. These lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. Using a long-handled spoon carefully remove the plug. Insert a Place Pac as far down as possible. Reclose opening, being careful not to cover bait with soil.

MAIN RUNWAY BAITING: To locate main runways, probe about 6 to 8 inches away from mounds by use of an iron bar, a strong stick, or other suitable implement. Resistance on probe will drop suddenly and probe will fall about two inches when main runway is entered. Carefully enlarge the opening to accommodate insertion of the bait packet. Insert one Place Pac into each active tunnel. Carefully close the hole with a stone, sod, or soil. Take care not to cover bait with soil.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply this product directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be placed in trash or delivered to an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse empty container. Dispose of empty container by placing in trash, at an approved waste disposal facility or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Call your local waste agency for any questions on proper disposal.

WARRANTY: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
