TERM OF ISSUANCE

NOTICE OF PESTICIDE:  REGISTRATION  
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Liqua-Tox II

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Bell Laboratories, Inc.  
3699 Kinsman Boulevard  
Madison, WI 53704

5424892 161  
18

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Add the phrase, "EPA Registration No. 12455-61" to your label before you release the product for shipment.
3. Submit one copy of your final printed labeling for both the pouch and the outer carton before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

This registration will be subject to cancellation in accordance with FIFRA sec. 6(e) if you do not comply with these conditions. Your release for shipment of the product constitutes acceptance of these conditions.

Mix contents of pouch with 1 quart of water.

ACTIVE INGREDIENT:  
Sodium Salt of Diphacinone; (2-Diphenylacetyl-1,3-indandione) ... 0.106%  
INERT INGREDIENTS ..... 99.894%  
TOTAL 100.000%

KEEP OUT OF REACH OF CHILDREN  
CAUTION

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions.

**IMPORTANT:** Do not expose children, pets, or other nontarget animals to rodenticides. To help to prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations equipped for dispensing liquid rodenticide baits. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are filled, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hoofed livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled, and unconsumed bait as specified on this label.

**USE RESTRICTIONS:** This product may be used to control Norway rats (*Rattus norvegicus*), roof rats (*R. rattus*), and house mice (*Mus musculus*) in homes; in industrial, agricultural, and commercial buildings; and in similar manmade structures. Do not use LIQUA-TOX II in any area where there is a possibility of contaminating food or surfaces that come in direct contact with food.

**MIXING DIRECTIONS:** Thoroughly mix contents of one 1.68 fl. oz. package in 1 quart (32 fluid ounces) of water.

**SELECTION OF TREATMENT AREAS:** Determine areas where rats and mice will most likely find and consume bait. Generally, these areas are along walls, by gnawed openings, beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen.

#### APPLICATION DIRECTIONS

**RATS:** Provide a minimum of 1 pint (16 fluid ounces) of LIQUA-TOX II in each dispenser (suitably-equipped bait station, chick fountain, or other suitable device). If infested area is large, or if rat population appears to be high, use dispensers at several locations. Space dispensers and refill them as needed to ensure that bait is exposed in all infested areas where it can be used without putting nontarget organisms at risk.

**MICE:** Provide 1/2-pint (8 fluid ounces) placements of LIQUA-TOX II in suitably-equipped bait stations, chick fountains, or other appropriate vessels. Place dispensers at intervals of 8-12 feet in all infested areas where bait can be used without putting nontarget organisms at risk.

**RATS & MICE:** Replace contaminated or spoiled bait immediately. Collect and properly dispose of dead animals and bait that is no longer needed. Continue treatments as long as target species are being controlled by bait and nontarget species are not at risk.

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS & DOMESTIC ANIMALS

**CAUTION:** Keep away from humans, domestic animals and pets. If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. Exposure during pregnancy should be avoided. Avoid contact with skin, eyes, or clothing.

##### STATEMENT OF PRACTICAL TREATMENT

**IF SWALLOWED:** Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

**IF IN EYES:** Flush eyes with plenty of water. Call a physician if irritation persists.

**IF ON SKIN:** Wash with plenty of soap and water.

**NOTE TO PHYSICIAN:** If ingested, administer Vitamin K, intramuscularly or orally as indicated in bihydroxycoumarin overdoses. Repeat as necessary based on monitoring of prothrombin times.

##### ENVIRONMENTAL HAZARDS

Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

##### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

**STORAGE:** Store only in original container, in a dry place inaccessible to children and pets.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash.
