John Lublinkhof, Ph.D.  
Director of Regulatory Affairs  
Bell Laboratories, Inc.  
3699 Kinsman Blvd  
Madison, WI 53704

Subject: PRIA Label Amendment – The addition of alternative material for the Tier 1 bait station  
Product Name: Tom Cat Mouse Killer I  
EPA Registration Number: 12455-120  
Application Date: 10/8/2014  
Decision Number: 496311

Dear Dr. Lublinkhof:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Page 2 of 2  
EPA Reg. No. 12455-120  
Decision No. 496311

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Jacquelyn Marchese by phone at 703-347-0559, or via email at [marchese.jacquelyn@epa.gov](mailto:marchese.jacquelyn@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read 'VE', followed by a long horizontal line extending to the right.

**FIRST AID**  
**HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE**  
**IF SWALLOWED:**  
▪Call a poison control center, doctor, or 1-877-854-2494.  
immediately for treatment advice.  
▪Have person sip a glass of water if able to swallow.  
▪Do not induce vomiting unless told to do so by the poison control center or doctor.  
**IF ON SKIN:**  
▪Wash with plenty of soap and water.

## **TREATMENT FOR PET POISONING**

If an animal eats this bait, call a veterinarian at once.

### **NOTE TO PHYSICIAN OR VETERINARIAN**

Contains the nerve poison bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

## **PRECAUTIONARY STATEMENTS**

### **Hazards to Humans and Domestic Animals**

**CAUTION:** Bait contents harmful if swallowed. Keep away from children, domestic animals and pets. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

**USER SAFETY REQUIREMENTS:** As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco, or using the toilet.

### **ENVIRONMENTAL HAZARDS**

This product is extremely toxic to fish, birds and other wildlife. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water.

## **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. Use only for the sites, pests and application methods described on this label.

### **USE RESTRICTIONS:**

This bait station may be used in areas accessible to children and pets, consistent with all use restrictions and other requirements indicated on this label. Do not apply further than 50 feet from home or building.

For control only of house mice. This bait station can only be refilled with the block bait sold with this station. TOMCAT MOUSE KILLER I must be used in and around buildings consistent with all use restrictions and other requirements indicated on this label. Do not place this bait station or stored block bait in any area where there is a possibility of contaminating food or surfaces that come into direct contact with food. Store bait block refills out of reach of children and pets.

**SELECTION OF TREATMENT AREAS:** Determine areas where house mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places.

### **APPLICATION DIRECTIONS:**

While wearing gloves, place one block of bait in the bait station. See additional GRAPHICS AND TEXT. Place the bait station at highest point of activity along a wall or in corner where

mice or their signs have been seen. If additional units are to be used, place bait stations at 8 to 12 foot intervals. While wearing gloves, replace bait in bait station when bait is consumed or contaminated. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse activity cease in infested areas.

## LOADING BAIT INTO STATION

### 1 REMOVE BAIT CARTRIDGE FROM BOTTOM OF STATION

With your left hand push tab up.

While still holding tab, squeeze prongs of bait cartridge and pull away from station.

### 2 LOAD BAIT

Place bait into cartridge.

Push cartridge into station until it clicks into place.

**Follow-up:** Wearing gloves, collect and properly dispose of any leftover bait or carcasses. To discourage reinfestation, eliminate food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store only in original container in a cool, dry place inaccessible to children and pets.

**Pesticide Disposal and Container Handling:** Nonrefillable Container. Do not reuse or refill container except as described in the Directions For Use.

**If Empty:** Place in trash or offer for recycling if available.

**If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**WARRANTY:** To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions
