Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460**

EPA Reg.
Number:

12455-129

Date of Issuance:

JUN 1 2010

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration
(under FIFRA, as amended)

Term of Issuance: **conditional**

Name of Pesticide Product:

**TOMCAT® MOUSE KILLER
III**

Name and Address of Registrant (include ZIP Code):

Mr. John Lublinkhof
Director of Regulatory Affairs
Bell Laboratories, Inc.
3699 Kinsman Blvd.
Madison, WI 53704

5874506
300/1135
587571
300/1180

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his/her motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA Sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA Sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for registration review.
2. Make the label changes listed below before you release the product for shipment.
 - a. Replace "EPA Reg. No. 12455-REO" with "EPA Reg. No. 12455-129" on the "**OUTER PACKAGE – COMPLETE LABEL**" and the "**BAIT STATION LABEL**".
 - b. Change "safety tab" to "tab" in both places where "safety tab" appears in the illustrated direction "REMOVE BAIT CARTRIDGE FROM BOTTOM OF STATION" (below the first "**APPLICATION DIRECTIONS:**" paragraph on "Page 2 of 6" of the "**OUTER PACKAGE – COMPLETE LABEL**").

Signature of Approving Official:

Page Two
EPA Reg. No. 12455-129

The Confidential Statement of Formula (CSF) dated "February 15, 2010" is accepted. That CSF describes the only formulation that may be used for this product.

If you were to add a reference to the company's website to any label or labeling for this product, that website then would constitute labeling under Section 2(p)(2)(B) of FIFRA and be subject to review by the Agency. If the website were to contain false or misleading information, the product would be misbranded, as defined in Section 2(q)(1)(A) of FIFRA, and unlawful to sell or distribute under Section 12(a)(1)(E) of FIFRA. 40 CFR §156.10(a)(5) lists categories of statements that are among those that EPA considers to be false or misleading. Regardless of whether a website is referenced on the label or labeling of a pesticide product, claims made on the website may not differ substantially from the claims approved for the product through the registration process. If EPA finds that a website contains false or misleading statements or claims substantially different from those accepted for the product, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

This product is not consistent with EPA's revised May 28, 2008, "Risk Mitigation Decision for Rodenticides". EPA anticipates cancellation of those existing products that are not consistent with the Risk Mitigation Decision to occur no later than June 4, 2011. In the meantime, EPA is accepting new registrations and amendments to existing registrations of rodenticide bait products, on a limited-time basis, so long as the registrations do not present greater risks of unreasonable adverse effects than do existing products. Accordingly, this registration is approved only subject to the condition that the registration shall expire on June 4, 2011. This condition of registration may be amended in conjunction with amendments to conform to the Risk Mitigation Decision. Absent such amendments, product released for shipment by the registrant after June 4, 2011, would be in violation of FIFRA.

Submit a copy of each element of final printed labeling for the record before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA Sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

If you have any questions regarding this letter, you may contact Dr. William W. Jacobs by phone at 703-305-6406, by FAX at 703-308-0029, or via e-mail at jacobs.bill@epa.gov.

Sincerely yours,

John Hebert

EPA EST. NO. 12455-WI-1

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sites, pests and application methods described on this label.

USE RESTRICTIONS:

DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO CHILDREN, PETS, DOMESTIC ANIMALS, OR NONTARGET WILDLIFE.

This product may only be used to control house mice inside of homes. The bait blocks that accompany the bait station may only be used in that bait station or in another bait station unit of identical design. This bait station must be used in a manner consistent with all use restrictions and other requirements indicated on this label. Do not place this bait station or stored bait blocks in any area where there is a possibility of contaminating food or surfaces that come into direct contact with food.

SELECTION OF TREATMENT AREAS: Determine areas where house mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places.

APPLICATION DIRECTIONS:

Place one bait block in the bait station. See additional GRAPHICS AND TEXT. Place the bait station at highest point of activity along a wall or in corner where signs of house mice have been seen. If additional units are to be used, place bait stations at intervals of 8 to 20 feet. Replace bait in bait station when bait is consumed or contaminated. Maintain an uninterrupted supply of fresh bait for at least 15 days or until there no longer are signs of mouse activity.

**LOADING
BAIT INTO
STATION**

**1 REMOVE BAIT CARTRIDGE
FROM BOTTOM OF STATION**

2 LOAD BAIT

Follow-up: While wearing gloves, collect and dispose of any leftover bait and bait stations. To discourage reinfestation, eliminate food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Keep product away from humans, domestic animals, and pets. Bait block contents are harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

USER SAFETY REQUIREMENTS: As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID

HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE

IF SWALLOWED:

- Call a poison control center, doctor, or 1-877-854-2494, or 1-800-858-7378* immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

IF ON SKIN:

- Wash with plenty of soap and water.

* Also call this number for information on health concerns and pesticide incidents.

TREATMENT FOR PET POISONING

If an animal eats this bait, call a veterinarian at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the nerve poison bromethalin. This product is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs (such as muscle tremors, loss of hind limb use, or seizures for animals), limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to fish, birds and other wildlife. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply this product directly to water.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store only in original container in a cool, dry place inaccessible to children and pets.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partially filled:** Place in trash or call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY: To the extent consistent with applicable law, seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
