Madison, WI 53704

Decision # 435-859
R 340 5-884437
1155

Attention: Dr. John Lublinkhof

Subject Tomcat® Mouse Killer VIII
EPA Reg. No. 12455-130
Your amended application of June 14, 2010

Purpose This submission requests a change in the type of bait station (from “non-compliant” to Tier 3) used for this product, under sec 3 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and to make labeling changes consistent with the Agency’s May 28, 2008, Risk Mitigation Decision for Ten Rodenticides for a Tier 3 bait station.

Review We have reviewed the data submitted to change the type of bait station from “non-compliant” to Tier 3 and have found these data acceptable.

Labeling The labeling submitted with the above letter will be acceptable, provided that you submit one (1) copy of the final printed label before you ship your product.

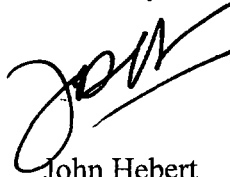

Compliance with Risk Mitigation With the above change, this product will be in full compliance with the Agency’s revised May 28, 2008 “*Risk Mitigation Decision for Ten Rodenticides*” and current requirements.

- Existing stocks**
- The registrant may not distribute or sell existing stocks of this product after June 4, 2011 unless they conform to the terms and conditions of registration as amended today.
 - Any person other than the registrant may sell and distribute existing stocks of this product with the previously approved label until such stocks are exhausted.
 - Any person may use existing stocks of this product with the previously approved label until such stocks are exhausted.

Consequence for non-compliance If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Questions If you have questions about this letter, please contact Mr. Dan Peacock at 703-305-5407 (phone); 703-305-6596 (fax); or peacock.dan@epa.gov (E-Mail).

Sincerely,

John Hebert

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for the sites, pests and application methods described on this label.

USE RESTRICTIONS:

This bait station may be used in indoor areas accessible to children, consistent with all use restrictions. **DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO PETS.** For control only of house mice in homes. This bait station can only be refilled with the block bait sold with this station. This bait station must be used in homes with all use restrictions and other requirements indicated on this label. Do not place this bait station or stored bait blocks in any area where there is a possibility of contaminating food or surfaces that come into direct contact with food.

012455-00130.20101025

SELECTION OF TREATMENT AREAS: Determine areas where house mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in corners and concealed places.

APPLICATION DIRECTIONS:

While wearing gloves, place one bait block in the bait station. See additional GRAPHICS AND TEXT. Place the bait station at highest point of activity along a wall or in corner where mice or their signs have been seen. If additional units are to be used, place bait stations at 8 to 12 foot intervals. While wearing gloves, replace bait in bait station when bait is consumed or contaminated. Maintain an uninterrupted supply of fresh bait for at least 15 days or until signs of mouse activity cease in infested area.

**LOADING
BAIT INTO
STATION**

Follow-up: Wearing gloves, collect and dispose of any leftover bait. To discourage reinfestation, eliminate food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.

5/2

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Keep away from humans, domestic animals, and pets. Bait block contents are harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or clothing. Any person who retrieves carcasses or unused bait following application of this product must wear gloves.

USER SAFETY REQUIREMENTS: As soon as possible, wash hands thoroughly after applying bait and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID HAVE LABEL WITH YOU WHEN OBTAINING TREATMENT ADVICE	
If Swallowed	<ul style="list-style-type: none"> • Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice. • Have a person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor.

NOTE TO PHYSICIAN
If swallowed, this material may reduce the clotting ability of the blood and cause bleeding. If ingested, administer Vitamin K ₁ intramuscularly or orally. Repeat as necessary based on monitoring of prothrombin times.
TREATMENT FOR PET POISONING
If animal eats bait, call veterinarian or 1-877-854-2494 at once.
NOTE TO VETERINARIAN
Anticoagulant Diphacinone: For animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin K ₁ .

ENVIRONMENTAL HAZARDS

This product is extremely toxic to mammals, birds and other wildlife. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store only in original container in a cool, dry place inaccessible to children and pets.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Do not reuse or refill this container except as described in the Directions For Use. **If empty:** Place in trash or offer for recycling if available. **If partially filled:** Place in trash or call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
