

PRYLEY Winter Grade Algicide is a maintenance product specifically designed to prevent the growth of algae during the swimming pool shut down.

KEEPS swimming pool water clear. NON-CORROSIVE to lining.

CONTROLS algae slime during off season shut down.

HELPS reduce clean-up time when pool is put in operation.

#### DIRECTIONS

Add at rate of 1 gallon for every 50,000 gallons of pool water or 1 quart for every 12,500 gallons before the shut-down at the swimming season and allow to circulate.

This treatment is usually sufficient for the normal off season period. In some cases an additional one or two treatments may be necessary. Treatments should be repeated as algae come out with no filtration for 4 to six weeks before re-starting daily pool operation.

#### DANGER

This product is toxic to fish. Excess effluent should not be discharged. Do not allow to drain into lakes, streams or rivers.

Keep away from use. Do not allow to be used around children.

#### NOTE TO PHYSICIAN:

Probable cause of irritation of eye, contraindicate the use of water-soluble. Measures against respiratory shock, respiratory depression and convulsion may be needed.
