

POOL START

- Satisfies chlorine demand of swimming pool water by oxidizing organic matter and reducing the number of bacteria and algae.
- Is used only once to start pool.
- Is a conditioner which prepares the pool water for an effective sanitizing program.
- Is not for maintaining a chlorine residual.

How To Use Pool Start

1. Clean or backwash filter.
2. Adjust pH level to 7.2-7.6 using a reliable test kit.
3. In the amount shown on the table below, add Pool Start slowly through the pool skimmer.
4. Wait 2 hours and adjust pH to 7.2-7.6.
5. Test Chlorine residual with a reliable test kit. Do not allow swimmers in the pool until the chlorine residual has dropped below 2.0 ppm.
6. To maintain a minimum chlorine residual, follow the directions of the label of your regular swimming pool chlorine product.

DOSAGE CHART

Pool Cap. (Gals.)	To Provide 25 ppm Cyanuric Acid and 10 ppm Available Chlorine		To Provide 20 ppm Cyanuric Acid and 8.2 ppm Available Chlorine	
	5,000	1 lb.	9½ oz.	1 lb.
10,000	3 lbs.	3 oz.	2 lbs.	8 oz.
15,000	4 lbs.	12½ oz.	3 lbs.	12 oz.
20,000	6 lbs.	6 oz.	5 lbs.	
25,000	7 lbs.	15½ oz.	6 lbs.	4 oz.
50,000	15 lbs.	15 oz.	12 lbs.	8 oz.

AquaMaid

POOL START

Specifically formulated for starting up swimming pools.

ACTIVE INGREDIENT: Sodium dichloro s triazinetrione dihydrate 49.1%

INERT INGREDIENTS 50.9%

(Contains 27.5% by weight available chlorine)

DANGER: Keep Out of Reach of Children
See Right Panel for First Aid and Additional Precautionary Statements.

E.P.A. Reg. No. 12465-14

NET WEIGHT: 1½ LBS.

DANGER

KEEP OUT OF REACH OF CHILDREN

Strong oxidizer. Harmful if swallowed. May cause eye damage. Protect eyes when handling. May cause irritation to skin, nose and throat. May cause burns to broken skin. Avoid contact with skin, nose and throat.

Store in a cool, dry, well ventilated area. Moisture contamination may liberate irritating and hazardous chlorine-containing gases. Oxidizing material: Do not mix with other chemicals. Contact with organic matter may cause fire. Burning will produce chlorine or other equally toxic gases. Do not reuse empty container. Rinse empty container thoroughly clean and discard. Treated pool water should not be discharged directly into lakes, streams or ponds.

FIRST AID: If taken internally — feed bread soaked in milk followed by olive oil or cooking oil. Call a physician. In case of contact, remove excess material and flush skin or eyes for fifteen minutes with cold water. For eyes get medical attention. Clean contaminated clothing before reuse.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.
