CONTENTS: ONE GALLON

ALGAEICIDE 100

ACCEPTED

JUL 28 1975

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 12465-22

DIRECTIONS FOR USE

Initial Dose: 1 gallon ALGICIDE to 50,000 gallons of water.

Maintenance Dose: 1 quart ALGICIDE to 50,000 gallons of water. Apply directly to the pool water. Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

When ALGICIDE is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green) *Phormidium inundatum* (black algae), *Phormidium retzii* Square D algae), *Lyngba versicolor* (blue-green) and other swimming pool algae.

ALGICIDE is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or premixed with other water treatment chemicals.

FISH AND/OR WILDLIFE PRECAUTIONS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Apply this product only as specified on this label.
