STORAGE AND DISPOSAL

Under the Federal Insecticide, Fungicide, and Rodenticide Act, this product is classified as a pesticide. It is a highly chlorinated compound. Store in a dry, well-ventilated area only from heat or flame. Do not reuse empty containers. Rinse empty containers thoroughly with water. Do not discharge all contents before destroying. Place in a leak-proof container or dispose in an approved landfill area. **DO NOT RECYCLE.** Do not reuse containers. If possible, recycle containers in clean air or well-ventilated areas. Flood with large volume of water, avoid breathing fumes. Dispose of contaminated material in an approved landfill.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in any manner or context with its labeling. For use in each loop, through and through filters. One tablet (about 1 oz.) will provide approximately 5 p.p.m. of available chlorine in 10,000 gallons of water.

RECYCLING COOLING WATER SYSTEMS: When used as directed CL-90 will effectively control algae, bacterial and fungal slime in evaporated and industrial cooling towers, air-handling systems such as floor through filters, and superheaters; heat exchanger water systems, boiler feedwater, and industrial air handling systems equipped with a wet scrubber.

COOLING TOWER/CHILLER COOLING WATER SYSTEMS: For the control of slip, bacterial and fungal slimes in through and through filters and water cooling systems; cooling ponds, streams and lagoons, add CL-90 to the system first when or before any other antimicrobial agent in the system.

INDIA USE: When system is continuously flushed, add 2 tablets for each 10,000 gallons of water contained in the system. Flush as needed to achieve a one ppm chlorine residual in the system.

COLLAR USE: Use 1 tablet for each 10,000 gpm every other day, or as needed to maintain a one ppm chlorine residual.

NOTE: Seller warrants that this product complies with the specifications expressed in this label. Seller makes no other warranties and disclaims all other warranties express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. Seller's liability for default, breach, or failure under this label shall be limited to the amount of the purchase price. Seller shall have no liability for consequential damages.

ACTIVE INGREDIENT:
*Trichloro-s-triazinetrione99%
INERT INGREDIENTS:1%
*Available chlorine 88%

DANGER

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

Hazard To Humans and Domestic Animals

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wash goggles or face shield, rubber gloves and wet clothes, dry thoroughly when handling. Irritating to nose and throat. Avoid breathing dust or fumes. Remove and wash contaminated clothing before reuse.

FIRST AID (PRACTICAL TREATMENT)

If swallowed: Flush large amounts of milk and/or water and induce vomiting. Call a physician immediately.
If on skin: Wash off excess chemical and flush skin with acid water for at least 15 minutes. If irritation persists, get medical attention.
If in eyes: Flush with cold water for at least 15 minutes. Get immediate medical attention.
If inhaled: Remove person to fresh air. Get immediate medical attention.

PHYSICAL AND CHEMICAL HAZARDS

SHOCK SENSITIVE AGENT: Use only clean, dry materials. Mix only with water. Do not add this product to any dispersing device containing remnants of any other product. Continuation with moisture, dirt, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. BLEND WITH CAUTION with evolution of chlorine and equally toxic gases. Avoid any contact with flammable or burning material such as a lit cigarette.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance contact the regional office of EPA.
