A-200

A BROAD SPECTRUM MICROBIOCIDAL FOR THE
CONTROL OF ALGAE, BACTERIA AND FUNGI
IN OPEN RECIRCULATING COOLING SYSTEMS

Active Ingredient: Polyoxyethylene(dimethyliminio)ethylene(dimethyliminio)ethylene dichloride. . . 7.5%
Inert Ingredient: 92.5%

Weight per gallon - 8.4 pounds

Weight of active ingredient per gallon - 0.64 pounds

DIRECTIONS FOR USE: Initial Dosage: Slug feed A-200 on the basis of 8 to 20 fluid ounces per 1000 gallons of system water capacity. This dosage will provide a concentration of 64 to 160 ppm in the treated water. Repeat initial dosage every 24 hours until control is achieved. For maximum effectiveness, heavy growths of algae should be removed prior to the use of A-200.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN.
Harmful if swallowed. Avoid contact with skin and eyes.
In case of contact: SKIN - Immediately wash with water, flushing for at least 15 minutes; EYES - Immediately flush with water for 15 minutes. If eye irritation persists, get medical attention.

Continuing Dosage: Subsequent additions of A-200 should be made once per week on the basis of 2 to 20 fluid ounces per 1000 gallons of system water capacity. The frequency of addition may be increased or decreased depending upon water losses from the system and the severity of the microbiological problem.

Avoid contamination of food. This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of waste. Use only as directed on label. Do not reuse container. Destroy when empty.
