

GENERAL DIRECTIONS

METHYL - EPN 42 is an emulsifiable concentrate which contains 4 lbs. Methyl Parathion and 2 lbs. EPN for use on cotton insects. It is suitable for use in conventional hydraulic sprayers and airplane sprayers. For aerial or ground application, dilute in 3 to 4 gallons of water per acre.

COTTON: For control of thrips, certain spider mites, cotton fleahoppers, boll weevils, bollworms, yellow striped armyworm, and garden webworm, apply when insects appear and repeat at 5 day intervals as necessary.

INSECT	COTTON SIZE	ACRE/GAL
Thrips	Seedling	32
Certain Species Spider Mites		16
Lygus Bugs & Other Mirids		32
Cotton Fleahopper	Squaring	32
Yellow Striped Armyworm		6
Garden Webworm		16
Overwintered Boll Weevil		20
Certain Species Spider Mites		16
Cotton Aphid		16
Boll Weevil	Late Season	12
Bollworm		4
Cotton Leafworm		12
Fall Armyworm		16

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

Consult your County Agent or State Agricultural Extension Service for specific recommendations as to timing of application. TIME ALL APPLICATIONS in accordance with State and Federal recommendations.

DANGER

DANGER: BEFORE USING READ THIS LABEL CAREFULLY
POISONOUS IF SWALLOWED, INHALED OR ABSORBED THROUGH SKIN: Rapidly absorbed through skin. Do not get in eyes or on skin or clothing. Wear natural rubber gloves, water proof protective clothing and goggles. Wear a mask or respirator of a type passed by the U. S. Bureau of Mines for EPN protection. Keep all unprotected persons out of operating areas or vicinity where there may be danger of drift. Vacated areas should not be reentered until drifting insecticide and volatile residues have dissipated. Wash hands, arms, and face thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse. Do not contaminate feed and foodstuffs. Do not graze or feed dairy animals and animals being finished for slaughter on treated fields or on treated cotton trash.

Do not apply when weather conditions favor drift from areas treated. Keep away from heat and open flame. Use only for recommended purposes and at recommended dosages.

Do not hand pick or harvest within 7 days of application. Workers entering fields within 24 hours after application should wear protective clothing.

DANGER: Extremely hazardous by skin contact, inhalation or swallowing. Rapidly absorbed through skin. Repeated exposure may, without symptoms, be increasingly hazardous.

In case of eye contact, flush eyes with plenty of water for at least 15 minutes.

SYMPTOMS OF POISONING: A sense of "tightness" in chest, stomach pains, vomiting and diarrhea.

ANTIDOTE: Internal: If swallowed, give a tablespoon of salt in a glass of warm water and repeat until vomit fluid is clear. Have victim lie down and keep quiet. Call a physician immediately.

ANTIDOTE: External: If on skin in case of contact, remove contaminated clothing and immediately wash skin with soap and water.

TO PHYSICIANS: Compound exerts muscarine-like effects—i.e., stimulation of the parasympathetic nervous system. A parasympathetic depressant, such as atropine, is indicated to relieve symptoms. The administration of oxygen is helpful. Morphine and tranquilizers are contraindicated.

2-PAM Chloride (Pralidoximachloride) may be used as a human antidote. Administer according to manufacturer's direction.

This product is toxic to fish and wildlife. Keep out of lakes, streams, and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Birds feeding on treated areas may be killed. Apply this product only as specified on this label.

DISPOSAL WARNING

Do not reuse empty container. Return to drum conditioner or destroy by perforating or crushing and burying in a safe place. In case of spillage, wash down with large amounts of water. Decontaminate areas and equipment by washing with a concentrated solution of alkali and detergent and rinse with water.
