mpment in food processing plants,
 ction containing 1/2 ounce of DSD

per gallon of water. If surface is heavily soiled, use DSD at a rate
 of 2 ounces per gallon to insure thorough cleaning. Sanitize cleaned
 surface with a rinse solution containing 1/2 ounce of DSD per gallon
 of water. No rinse required after sanitization on walls and floors,
 food contact surfaces must be thoroughly rinsed with clear water
 of drinking quality before reuse.

DEODORIZATION

To deodorize surfaces during cleaning, mop or brush surfaces with
 a solution containing 2 ounces of DSD per gallon of water.
 DSD is an effective anti-bacterial cleaner designed for use in house-
 held, industrial and institutional cleaning. When used as directed,
 DSD will disinfect hard surfaces, such as floors, walls, counter
 tops and furniture. It may be relied upon to deodorize bathroom
 areas, garbage pails, food storage areas, kennel areas and other
 areas where obnoxious odors may develop. This product may be used
 as a general purpose antibacterial-antifungal detergent in homes,
 schools, restaurants, hospitals, nursing homes, public rooms, food
 processing plants and in other places where efficient cleaning and
 antimicrobial action is desired.
 See left panel for use directions.

DANGER

KEEP OUT OF REACH OF CHILDREN

Corrosive. Causes eye damage and skin irritation. Do not get in eyes,
 on skin or on clothing. Protect eyes and skin when handling. Harmful
 if allowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water
 for at least 15 minutes. For eyes, call a physician. Remove and wash
 contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites,
 gelatin solution or if these are not available, drink large quantities
 of water. Call a physician immediately.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage.
 Measures against circulatory shock, respiratory depression and con-
 vulsion may be needed.
