Net Wt. _____

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is for sale to, use and storage only by utility and commercial or industrial service personnel.

For Use In and Around Telecommunications, Power, Utilities and Railroad Systems Equipment

For use in and around buried cables, cable television pedestals, cables, pad-mounted air conditioning units, pad-mounted electric power transformers, telephone cables, underground vaults, telecommunications equipment (boxes, closures, interfaces, pedestals, protectors and terminals), power and utilities equipment (camera housings, control panels, emergency light systems, fire alarm systems and lights/alarms), and railroad systems equipment (breaker boxes, railroad signals, traffic control boxes and signals, and transformer pads). Do not open contents until ready for use.

[For product packaged in 4 oz. Mylar bags:]

Do not place product where it will interfere with moving parts of equipment. Due to various equipment sizes, the amount of product may change, however, 4 oz. per 1 sq. ft. is recommended. Use in interior and exterior areas at points of entry. Open Mylar plastic bag and pour entire contents (4 oz.) directly into and around equipment, buried closure or hole. Lock equipment or closure or set pole immediately to prevent access. On bag will treat up to 12" x 12" (1 sq. ft.).

[For product packaged in 96 oz. containers:]

Open the applicator dispenser lid two (2) notches and shake (broadcast left to right) the insecticide onto the ground, covering the area of the pad location, plus a two foot perimeter around the outside of the pad location. This container will cover up to a 100 sq. ft. area (an area 10' x 10'). Container holds the equivalent of 24, 4 oz. bags of Rainbow Fire Ant Killer. Plastic barrier required for poured-in place pads. Prior to pouring concrete, cover insecticide-treated surface with plastic barrier.

Storage: Store in a clean, dry place. Protect container from rupture during storage and transport. If contents are spilled, sweep or scoop up material and place in another clean, dry container for reuse or disposal in accordance with this label. **Disposal:** Do not reuse empty container. Securely wrap and discard in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed. Avoid breathing dust. Avoid contact with eyes, skin or clothing. Wash thoroughly after handling and before eating or smoking. Avoid contamination of feed and foodstuffs.

Statement of Practical Treatment

If Swallowed: Call a physician or poison control center immediately. **If Inhaled:** Remove person to fresh air. Apply artificial respiration if indicated. **If on Skin or Clothing:** Immediately remove contaminated clothing. Wash affected areas with soap and water. Contact a physician if irritation persists. Wash clothing before reuse. **Note to Physician:** Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is antidotal.

Environmental Hazards

This product is toxic to fish and wildlife. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on this label. Buyer assumes all risks of use and/or handling of this material when such use and/or handling is contrary to label instructions.
