Dear Ms. Davis:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4, and 2008-1 dated May 28, 2010 for

**EPA Registration Number: 13283-31 Rainbow® ETOC® 0.122% Wasp & Hornet Spray**

The Registration Division (RD) has conducted a review of this request for applicability Under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated contact may cause allergic reactions in some individuals.

**Physical or Chemical Hazards**

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

**Environmental Hazards**

This pesticide is highly toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain do not blow or wash pesticide away from the treatment area.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Shake Well Before Use.** Before spraying insects or nests, give the can a short burst away from the nest to ensure proper pressure. Contact with roof shingles may cause discoloration or other unwanted effects.

**Areas for Application:** Specially formulated for use in and around Telephone, Power, Cable, Electronics and Utility Equipment and Industries. Also for use on nests in/on Homes, Motels, Hotels and Non-Food Areas of Industrial, Institutional and Commercial Buildings including Stores, Manufacturing Plants, Warehouses and Hospitals (non-patient areas). Non-food/feed areas where this product may be applied are areas such as garbage rooms, lavatories, floor drains (to sewers), offices, locker rooms, machine rooms, boiler rooms, garages, closets and storage areas (after canning or bottling). When used in the home, cover all food processing surfaces and utensils during treatment or thoroughly wash before use. Cover or remove exposed food.

**Restrictions:** Do not use as a space spray. Do not contaminate feed and foodstuffs. Do not use in edible product areas of food/feed processing plants, restaurants or other areas where food/feed is commercially processed or prepared. Do not use in serving areas while food is exposed. Do not apply this product in a manner that will contact or expose occupants. Use caution when spraying flying insects. Only applicators may be in the area during application.

**For Wasp & Hornet Control:** (1) Spray from an upwind position. (2) Hold can in an upright position with nozzle end pointed toward nest while standing 6 to 12 feet away. (3) Begin spraying nest and as many flying insects as possible. (4) Thoroughly spray nest. (5) When possible, apply in early morning or at dusk when most of the insects have returned to the nest and are less active.

**For Yellow Jacket & Bee Control:** (1) Spray in a sweeping motion on external insects flying around the opening of the nest. (2) Move forward to the nest opening and spray directly into the nest hole. (3) When possible, apply in early morning or at dusk when most of the insects have returned to the nest and are less active. (4) For large nests more than one can may be necessary.

**For Outdoor Cockroach, Fly, Flea and Brown Dog Tick Control:** Thoroughly spray infested areas including outside surfaces of screen frames, doors, window frames, foundations, patios or other places where insects may congregate or enter premises. For **Fleas** and **Brown Dog Ticks**, Spray weeds and bushy non-crop vegetation. Do NOT spray pets or desirable vegetation. Optimal flea and tick control will be achieved if pets and yards are simultaneously treated with flea and tick control products registered for pet and yard uses.

**Storage and Disposal**

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Store in a cool, dry (preferably locked) storage area inaccessible to children and pets and away from heat or open flame. **Container Disposal:** Non-refillable container; do not reuse or refill this container.
