PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing. Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated contact may cause allergic reactions in some individuals.

Physical or Chemical Hazards

Flammable. Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Environmental Hazards

This pesticide is highly toxic to fish. Do not apply directly to water. Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Shake Well Before Use. Before spraying insects or nests, give the can a short burst away from the nest to ensure proper pressure. Contact with roof shingles may cause discoloration or other unwanted effects.

Areas for Application: Specially formulated for use in and around Telephone, Power, Cable, Electronics and Utility Equipment and Industries. Also for use on nests in/on Homes, Motels, Hotels and Non-Food Areas of Industrial, Institutional and Commercial Buildings including Stores, Manufacturing Plants, Warehouses and Hospitals (non-patient areas). Non-food/feed areas where this product may be applied are areas such as garbage rooms, lavatories, floor drains (to sewers), offices, locker rooms, machine rooms, boiler rooms, garages, closets and storage areas (after canning or bottling). When used in the home, cover all food processing surfaces and utensils during treatment or thoroughly wash before use. Cover or remove exposed food.

Restrictions: Do not use as a space spray. Do not contaminate feed and foodstuffs. Do not use in edible product areas of food/feed processing plants, restaurants or other areas where food/feed is commercially processed or prepared. Do not use in serving areas while food is exposed. Do not apply this product in a manner that will contact or expose occupants. Use caution when spraying flying insects. Only applicators may be in the area during application.

For Wasp & Hornet Control: (1) Spray from an upwind position. (2) Hold can in an upright position with nozzle end pointed toward nest while standing 6 to 12 feet away. (3) Begin spraying nest and as many flying insects as possible. (4) Thoroughly spray nest. (5) When possible, apply in early morning or at dusk when most of the insects have returned to the nest and are less active.

For Yellow Jacket & Bee Control: (1) Spray in a sweeping motion on external insects flying around the opening of the nest. (2) Move forward to the nest opening and spray directly into the nest hole. (3) When possible, apply in early morning or at dusk when most of the insects have returned to the nest and are less active. (4) For large nests more than one can may be necessary.

For Outdoor Cockroach, Fly, Flea and Brown Dog Tick Control: Thoroughly spray infested areas including outside surfaces of screen frames, doors, window frames, foundations, patios or other places where insects may congregate or enter premises. For Fleas and Brown Dog Ticks, spray weeds and bushy non-crop vegetation. Do NOT spray pets or desirable vegetation. Optimal flea and tick control will be achieved if pets and yards are simultaneously treated with flea and tick control products registered for pet and yard uses.
