**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

One Swipe II has been especially developed for use on horses. It provides a protective hair coating against flies while imparting a high sheen to the hair when brushed out. 1 to 2 ounces per head per day gives adequate protection. Apply by either soft cloth or fine mist spray.

**USE AS A WIPE:** First, brush animal to remove excess dirt and dust. Moisten a soft cloth (but do not wet to the point of dripping), and rub One Swipe II over the hair. It is best to apply by rubbing against the hair growth. Give special attention to the legs, shoulders, shanks, neck and facial areas where flies most often are seen.

Only a light application is required. Avoid using an excessive amount on your horses. Do not wet skin.

After application, brush out thoroughly to bring out bright sheen on the coat. Repeat daily or as required.

**USE AS A SPRAY:** One Swipe II may be applied as a fine mist spray to stable area and over and around stabled horses for fast paralysis and kill of flies. Do not wet horse's skin or exceed two ounces per application.

**STATEMENT OF PRACTICAL TREATMENT**

**If Swallowed:** Do not induce vomiting unless directed by a physician. Petroleum distillate may cause aspiration. Contact a physician immediately.

**If In Eyes:** Flush eyes with plenty of water. Contact a physician if irritation persists.

**If Inhaled:** Remove victim to fresh air. Apply respiration if indicated.

**If On Skin:** Remove contaminated clothing and wash affected areas with plenty of soap and water.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.
