Dear Ms. Protas:

Subject: Revised Label
Four Paws Magic Coat Plus II
EPA Registration No. 13799-24
Your Submission Dated February 18, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

1. Delete "allyl homolog of Cinerin 1" from the ingredient statement. It no longer represents the d-trans allethrin in this pesticide. Also delete the related compounds for d-trans allethrin as an active ingredient and include their percentage with the inert ingredient total.
2. Rearrange the rear panel text so that the heading PRECAUTIONARY STATEMENTS and subheading HAZARDS TO HUMANS AND DOMESTIC ANIMALS and signal word CAUTION precede the precautions on that panel. Reinstate "Do not swallow."
