DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:—For control of prairie dogs Black-tailed (*Cynomys ludovicianus*), White-tailed (*C. leucurus*), and Gunnison (*C. gunnisoni*) on rangeland only in North Dakota, South Dakota, Nebraska, Montana, and Wyoming.

Do not use in other states.

PREBAITING—Prebait with 4 grams (one teaspoon) of untreated steamrolled oats per mound, one to two days prior to baiting, to increase acceptance of treated baits by prairie dogs.

BAITING—Apply bait only after all or most of prebait is eaten and only to areas where untreated bait was consumed. Establish observation period during prebaiting. Apply bait by hand as a six-inch bait spot on edge of each mound or in adjacent feeding areas. Application rate should not exceed 4 grams (one teaspoon) per bait spot. Treat during late summer or fall period (July - January). Do not apply more than one bait application during this period. Dispose of spilled or unwanted bait by burial. (See other side panel "Storage and Disposal").

NOTICE

Seller makes no warranty, expressed or implied, concerning the use of this product other than that indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
