

ACCRA PAC WASP AND HORNET SPRAY

Fast Acting

Kills Wasps, Hornets and Yellow Jackets

ACTIVE INGREDIENTS

Pyrethrins	0.075%
*Piperonyl Butoxide, Technical	0.188%
Carbaryl (1-Naphthyl N-methylcarbamate)	0.500%
Petroleum Distillate	24.222%
INERT INGREDIENTS	75.015%
	100.000%

*Equivalent to 0.150% (butylcarbityl)(6-propyl-piperonyl) ether and 0.038% related compounds

KEEP OUT OF REACH OF CHILDREN CAUTION

Harmful if swallowed, inhaled or absorbed through the skin.
See rear panel for additional precautions.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS CAUTION

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist or contact with skin. Wash thoroughly after using. Avoid storage near food or feed. Do not spray on pets, humans or other animals.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

PHYSICAL OR CHEMICAL HAZARDS

Flammable! Contents under pressure. Keep away from heat, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STATEMENT OF PRACTICAL TREATMENT

If swallowed do not induce vomiting. Call physician immediately.
If on skin flush thoroughly with water. If irritation persists get medical attention.
If in Eyes flush with plenty of water. If irritation persists get medical attention.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

To operate, remove protective cap and depress button, being sure to aim spray opening at the location to be sprayed. Direct spray at insects wherever possible and under eaves, into nests, cracks, holes or crevices wherever insects are noticed. Spray for about 10 seconds or until surface is moist from insecticide. To prevent entrance of insects into the house, spray around points where outside plumbing, faucets, enter the house and into any cracks or devices in foundation as well as along sills and ledges.

Kills Wasps, Hornets and Yellow Jackets: This spray is fast acting when insects are hit directly. Allow about 24 hours for those insects which were not directly hit by spray to leave the area. If insects should return to the treated area, spray again. This container delivers a stream type spray, making it possible for the operator to stay back from the places sprayed.

This formulation utilizes pyrethrins, piperonyl butoxide and a carbamate type insecticide, a combination particularly effective on this class of insects.
