

13870-5

Cross-infection is of major housekeeping concern not only in hospitals, but in schools, institutions and industry. **CPI DISINFECTANT CLEANER** is formulated for this problem area. It both cleans and disinfects effectively when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-infection.

Two ounces of **CPI DISINFECTANT CLEANER** per gallon of water will deodorize bathrooms, garbage storage areas and other areas where bacterial growth can cause mal odors.

### **WARNING**

Keep out of reach of children. Causes severe eye and skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink promptly a large quantity of water. Avoid alcohol. Call a physician immediately.

### **USE DIRECTIONS:**

Apply **CPI DISINFECTANT CLEANER** to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop. For heavily soiled areas, a preliminary cleaning may be required.

**For Hospitals & Nursing Homes:** Add two ounces per gallon of water.

At two ounces per gallon use-level, **CPI DISINFECTANT CLEANER** is effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*, *Escherichia coli*, and pathogenic fungi. Germicidal performance against the first four organisms has been confirmed by the AOAC Use-Dilution Test. Fungicidal performance was determined against *T. interdigitale* by the AOAC Fungicidal Test.

**For Schools, Institutional and Industrial Uses:** Add one ounce per gallon of water.

At one ounce per gallon use level, **CPI DISINFECTANT CLEANER** delivers excellent cleaning and is germicidal. It is effective against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Escherichia coli*, and *Trichophyton interdigitale*, the athlete's foot fungus. The same AOAC tests used above to confirm suitable performance for hospitals were used.

Rinse empty container with water before discarding.
