Disinfectant-Cleaner 30-3

Cleaner — Disinfectant — Deodorizer — Fungicide
for Hospital and Institutional Use

AOAC Phenol Coefficients

- Staph aureus (ATCC No. 6538)
- Salmonella typhosa (ATCC No. 6539)

Active Ingredients:

- Didecyl dimethyl ammonium chloride
- Tetrasodium ethylenediamine tetraacetate
- Sodium carbonate
- Sodium metasilicate, anhydrous

Inert Ingredients:

EPA Registration No.

WARNING

KEEP OUT OF REACH OF CHILDREN

SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

Cross-infection is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. CPI Disinfectant Cleaner 30-3 is formulated for this problem area. It both cleans and disinfects effectively when used as directed. Its hard surface disinfection action will reduce the hazard of cross-infection.

USE DIRECTIONS: Add two ounces per gallon water. Apply CPI Disinfectant Cleaner 30-3 to walls, floors and other hard surfaces such as tables, chairs and bed frames with a cloth or mop. For heavily soiled areas, a preliminary cleaning may be required.

At two ounces per gallon use-level CPI Disinfectant 30-3 is effective against *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Salmonella choleraesuis*, and *Trichophyton interdigitale*. Germicidal performance against the first three organisms has been confirmed by the AOAC Use-Dilution Test. At 2 ounces per gallon the broad spectrum effectiveness of CPI Disinfectant Cleaner 30-3 is shown by its germicidal activity against the following additional organisms: *Escherichia coli*, *Klebsiella pneumoniae*, *Shigella sonnei*, *Shigella schottmuelleri*, *Streptococcus faecalis*, *Shigella dysenteriae*, *Brevibacterium linum*, *Enterobacter aerogenes*, *Pseudomonas putrefaciens*, *Streptococcus pyogenes*.

Fungicidal performance against *T. interdigitale* was determined by the AOAC Fungicidal Test.

WARNING

KEEP OUT OF REACH OF CHILDREN

May cause severe eye irritation or eye damage. Causes skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, give milk, raw egg white, gelatine solution; or if these are not available, drink water. Call a physician immediately.

Rinse empty container with water before discarding it.
