Big Foot 256

Contamination is of major housekeeping concern not only in hospitals but in schools, restaurants, and industry. BIG FOOT 256 is formulated for this purpose. It kills germs, disinfects effectively and is available when used at 100 ppm. The Big Foot 256 disinfectant will reduce the hazard of cross-contamination from one surface to another.

Precautionary Statements: Hazardous to Humans and Domestic Animals

DANGER

Keep out of reach of children. May cause severe eye irritation or eye damage. Causes skin irritation. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED STORAGE OR DISPOSAL WHEN DUMPING IS PROHIBITED DO NOT REUSE EMPTY CONTAINERS

PESTICIDE DISPOSAL
PESTICIDE, OR RINSATE THAT CANNOT BE USED OR CHEMICALLY REPROCESSED SHOULD BE DISPOSED OF IN A LANDFILL APPROVED FOR PESTICIDES OR BURIED IN A SAFE PLACE AWAY FROM WATER SUPPLIES.

CONTAINER DISPOSAL
TRIPLE RINSE (OR EQUIVALENT) AND DISPOSE IN AN INCINERATOR OR LANDFILL APPROVED FOR PESTICIDE CONTAINERS, OR BURY IN A SAFE PLACE.

GENERAL
CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES SUCH AS LIMITED OPEN BURNING.

Big Foot 256

Directions for Use
GENERAL CLASSIFICATION

This disinfectant is formulated to use this product in a manner consistent with its application. Add 1 ounce (1/2 cup) per gallon of water. Apply BIG FOOT 256 to walls, floors and other hard surfaces such as tables, chairs and bed frames with a scrub brush. In heavily soiled areas, a preliminary cleaning may be required. An ounce of Big Foot 256 per gallon of water. BIG FOOT 256 is effective against Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella typhimurium, and Trichophyton mentagrophytes. The athlete's foot fungus, Trichophyton mentagrophytes, has been shown to be resistant to the A.O.A.C. Use Disinfectant Test. The test for disinfection against Trichophyton was determined by the A.O.A.C. Fungus test.

The broad spectrum effectiveness of BIG FOOT 256 is shown by its activity against the following organisms:
Escherichia coli
Klebsiella pneumoniae
Aerobacter aerogenes
Salmonella schottmulleri
Streptococcus faecalis
Shigella dysenteriae
Bacterium amyloliquefaciens
At 100 ppm (1/2 table spoon per gallon) use level. BIG FOOT 256 is active against Herpes simplex virus family that causes genital herpes (the pox viruses), and as represented by the strain called the Hong Kong Flu and Influenza virus on man-made surfaces.

Big Foot 256

Directions for Use

GENERAL CLASSIFICATION

Federal Law to use this product is inconsistent with its use as a disinfectant.

Use Big Foot 256 to disinfect floors and surfaces such as tables and frames with a cloth or mop. Soiled areas may require a second application. Use Big Foot 256 is effective against Staphylococcus aureus, Staphylococcus epidermidis, and Staphylococcus aureus. The athlete's foot germicide performance of three organisms has been determined by the AOAC use performance test.

The broad spectrum effectiveness of BIG FOOT 256 is shown by the following list of organisms:

- Escherichia coli
- Klebsiella pneumoniae
- Aerobacter aerogenes
- Salmonella schultzei
- Streptococcus faecalis
- Shigella dysenteriae
- Brevibacterium ammoniagenes
- Atypical organisms: Herpes Simplex virus, a member of the virus family that causes influenza, Adenovirus, a representative of the pox virus, and influenza A as represented by the strain commonly called the Hong Kong Flu and the H1N1 Flu virus, which cause influenza outbreaks.
