Attention: Shaun L. Helmhout

Gentlemen:

Subject: GC 2020  
EPA Registration No. 14185-2  
Your Amended Application Dated September 17, 1986

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you:

1. Make the labeling change listed below before you release the product for shipment bearing the amended labeling:

- Expand the Environmental Hazards statement to read as follows:

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

  
John H. Lee  
Product Manager (31)  
Disinfectants Branch  
Registration Division (TS-767C)

Enclosure

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS  
AND DOMESTIC ANIMALS**

**DANGER:** Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

**STATEMENT OF PRACTICAL TREATMENT:** In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, promptly drink 1 or 2 glasses of water. Contact a physician or Poison Control Center immediately. **DO NOT INDUCE VOMITING** Note to physician:

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge treated effluent into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal

**STORAGE:** Do not expose to extreme temperatures. Do not stack more than four drums high. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sand or sawdust and disposed of in a sanitary landfill. Keep container closed when not in use

**PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at your EPA Regional Office for guidance

**CONTAINER DISPOSAL:**

- 1. **PLASTIC:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
- 2. **METAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities

**ACTIVE INGREDIENT:**  
POTASSIUM DIMETHYLDITHIOCARBAMATE ..... 20.0%  
**INERT INGREDIENTS** ..... 80.0%

This product contains 1.81 lb. of active ingredient per gallon and weighs 9.05 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

See Side Panel for Additional Precautionary Statements

DIRECT

It is a violation of the Clean Air Act to use this product in a manner inconsistent with the label.

GC 2020 is used in industrial systems and industrial air-wash systems. To the use of GC 2020 in industrial systems, systems should be checked for sludge and other deposits. Then make a slug dose of water in the system. Make subsequent slug additions (15 to 45 ppm GC 2020) every 24 hours. The frequency depends upon the relative microbiological problem. Slug dosing is used in industrial cooling water systems to eliminate components. Prior to slug dosing, remove bacterial slime and other deposits. A slug dose of water is added to provide a concentration of water should be employed. Subsequent slug additions depend upon the relative microbiological problem. Slug additions may be made in an air-wash system.

GC 2020 is used to control sulfate-reducing organisms, in industrial systems fouled with microbial slimes. In systems fouled with microbial slimes, a slug dose of water (treated) GC 2020 employing a chemical concentration of 15 to 45 ppm, based on a total weight addition of GC 2020 should be added to the receiving tanks. Addition should be made to the receiving tanks. GC 2020 is also used to inhibit drilling muds, completion fluids, and other fluids containing starch, gums, sugars, and other solids. GC 2020 is added at rates of 1.7 to 1.9 lb. per 100 gal. of fluid.

ACCEPTED  
FOR CONFORMANCE  
WITH FEDERAL REGISTER
