# Algae CLEAN OUT

**PRECAUTIONARY STATEMENTS** Hazards to Humans  
**CAUTION** Avoid contact with skin, eyes, or clothing. In case of contact, immediately flush eyes with plenty of water.  
Environmental Hazard  
Do not contaminate water by cleaning of equipment or disposal of wastes.  
**DO NOT USE TREATED WATER FOR DOMESTIC OR IRRIGATION PURPOSES**  
Some water plants may be affected (water hyacinth, water fern). They may begin to brown, continued use of product could kill them.

**DIRECTIONS FOR USE**  
It is a violation of federal law to use this product in a manner inconsistent with its labeling.  
**SHAKE WELL BEFORE USING**  
For aquariums, fountains, and small ponds with heavy algae growth, clean the excess algae off the sides and ornaments before adding FRITZ ALGAE CLEAN OUT. This will reduce the amount of decaying organic matter.  
**AQUARIUMS** — Add 15 ml (1 lbs.) per 10 gal. of water. Algae should start to disappear in about one week. Repeat when algae begins to reappear (approx. two months, depending on system).  
**FOUNTAINS, SMALL PONDS (i.e. goldfish, koi)** — Treat only those which will have little or no outflow after treatment. High water temperatures cause more rapid natural decay of dead algae which can cause fish distress. If animals are present, clean out excess algae as stated above or use before water temperature exceeds 75°F.  
Add 15 ml (1 lbs.) per 10 gal. of water. Algae should start to disappear in about one week. Repeat when algae begins to reappear (approx. two months, depending on system). To figure capacity of fountain or pond: L x W x H = cu. ft. x 7.5 = gallons.

**STORAGE AND DISPOSAL**  
Store in original container. Do not contaminate water or food by storage or disposal. Product Disposal — Securely wrap original container in several layers of newspaper and discard in trash. Container Disposal — Do not reuse container. Rinse thoroughly before discarding in trash.
