	100.0%

*Contains Dri-Die - Reg. trademark of W.R. Grace & Company

CAUTION

**KEEP OUT OF REACH
 OF CHILDREN**

Avoid inhalation.
 Container should be disposed of by burying with soil or by burning. Keep out of smoke. Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Do not use in sewing areas while food is exposed.

BYE-BUGS kills insects on contact through a physico-chemical action. It is odorless, non-staining, may be used anywhere in the home, factory, or other sites without damaging materials. Kills roaches, silverfish ants, fleas, and lice on contact.

DIRECTIONS FOR USE

ROACHES (German, Brown-Banded, Oriental), **SILVERFISH AND ANTS** Distribute Bye Bugs at the rate of 2 ounces per 100 square feet for floor area in visible concentration beneath and behind appliances. Apply a continuous visible film on and behind all moldings, shelving edges, around pipe openings, and in cracks and crevices where insects may hide. On severe infestations, apply Bye-Bugs in crawl spaces, attics, behind walls, cabinets, at the rate of 2 ounces per 100 square feet of floor area. Repeat as necessary.

NEW CONSTRUCTION: To help prevent infestations, apply between studding in lower part of all outer walls. Make sure all spaces between studs are treated. In plastic walls, holes may be made with a drill. After treatment, holes are closed by plasterers when taping.

FLEAS and LICE: Dogs and Cats - Liberally apply powder to the animals, rubbing thoroughly to the skin. Begin with the neck and include the underbody, legs, feet and base of the tail. Repeat as necessary. Surfaces of kennels should be treated at the rate of 2 ounces per 100 square feet. Repeat as necessary.
