lightly scrubbed with a solution containing 2 ounces per gallon of water and then rinsed with a fresh solution containing 2 ounces per gallon of water before use. (Continued on next page)

#### SANITIZATION

To sanitize walls, floors and equipment, mop or brush surfaces, first clean thoroughly with a solution containing 1 ounce of Disfect 235 per gallon of water. If surface is heavily soiled, use Universal Disfect 235, a rate of 2-3 ounces per gallon to insure thorough cleaning. Sanitize cleaned surface with a rinse solution containing 1/2 ounce of Disfect 235 per gallon of water. Those surfaces which will contact food must be rinsed with water of drinking quality before reuse.

#### DEODORIZATION

To deodorize surfaces during cleaning, mop or brush surfaces with a solution containing 2 ounces of Disfect 235 per gallon of water.

Universal Disfect 235 is an effective anti-bacterial cleaner designed for use in household, industrial and institutional cleaning. When used as directed Universal Disfect 235 will disinfect hard surfaces such as floors, walls, counter tops and furniture. It may be relied upon to deodorize bathroom areas, garbage pails, food storage areas, animal areas and other areas where waste odors may develop. This product may be used as a general purpose antibacterial and fungal deodorizer in homes, hotels, restaurants, schools, hospitals, public buildings, and other areas where odors may develop.

## USE DIRECTIONS:

Add two ounces per gallon of water.

Apply this product to walls, floors, and other hard surfaces as tables, chairs, and bed frames with a cloth or mop.

At two ounces per gallon use-level, this product is effective against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, and Trichophyton interdigitale, the athlete's foot fungus. Germicidal performance against the first three organisms has been confirmed by the AOAC Use-Dilution Test. Fungicidal performance against T. interdigitale was determined by the AOAC Fungicidal Test.

\* At two ounces per gallon use-level, this product is virucidal against Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), and Influenza A2 as represented by the strains commonly called the Hong Kong Flu and the London Flu Virus, on inanimate environmental surfaces.

Note, this product is not effective against Ps. aeruginosa at this use-level.

For sanitizing add one ounce per gallon of water.

Use this product for sanitizing and cleaning utensils, equipment, and other hard surfaces. When sanitizing food processing equipment and utensils and food contact surfaces, rinse thoroughly with potable water

Rinse empty container with water before discarding.
