

CHEMTOX-10

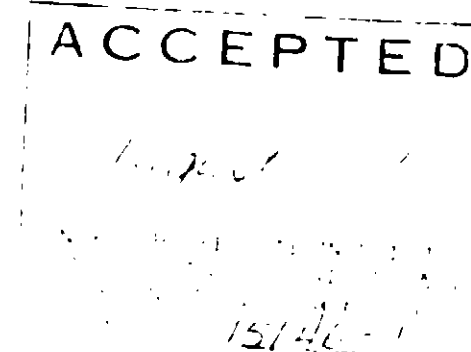

ACTIVE INGREDIENTS:

100% Sodium Pentachlorophenolate
 Sodium Salt of 2,4,6-Trichlorophenol

INERT INGREDIENTS:

TOTAL 100%

*Equivalent to 100% Technical Sodium Pentachlorophenolate

DIRECTIONS

To control Sapstain and Mold on exterior wood, best results will be obtained if the lumber is treated with Chemtox-10 before it is used. If not, interior stain may develop.

For lumber 1" or less in thickness, dissolve 10 lbs. of CHEMTOX-10 in 100 U.S. gallons of water. For thicker lumber, use a higher concentration. To prevent the growth of sapstain and mold, dissolve 10 lbs. of CHEMTOX-10 in 100 U.S. gallons of water. A 100 lb. second can more is sufficient.

The treatment solution should be first thoroughly mixed, then poured into the container to be treated. After filling, the container should be sealed and shaken. The solution should be applied to the wood surface and allowed to dry.

In order to ensure best results, the wood should be kept dry for 24 hours after treatment. The treated lumber should be stored in a dry place.

Approved for use on exterior wood. Do not use on interior wood, as it may cause staining. Do not use on painted wood, as it may cause peeling. Do not use on metal, as it may cause corrosion.

WARNING

KEEP OUT OF REACH OF CHILDREN. Do not use on food or feed. Avoid breathing dust. Use only on exterior wood. Do not use on interior wood, as it may cause staining. Do not use on painted wood, as it may cause peeling. Do not use on metal, as it may cause corrosion.

CALL A DOCTOR

If you or your family become ill after using this product, call a doctor immediately. Do not use if you are pregnant or nursing. Do not use if you are allergic to any of the ingredients.

NO WARRANTY

The manufacturer makes no warranty, expressed or implied, for the use of this product on any other material or for any other purpose than that indicated on the label. See label for full terms and conditions.
