ACCEPTED

OCT 21 1975

Under Federal Insecticide,
Fungicide, and Rodenticide Act,
Registration is hereby granted
EPA Reg. No. 15265-6

COMMENT

DANGER Keep out of the reach of children. Corrosive. Product may cause eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician. Avoid alcohol.

NOTE TO PHYSICIAN: Probable musosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Rinse empty container and dispose of properly.

ACCEPTED WITH COMMENTS

DIRECTIONS FOR USE

Initial Dose: 1 gallon ALGICIDE to 50,000 gallons of water.

Maintenance Dose: 1 quart ALGICIDE to 50,000 gallons of water. Apply directly to the pool water. Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

When ALGICIDE is used as directed, it will kill and prevent development of Chlorocella pyrenoidosa (green), Phormidium mandatum (black algae), Phormidium retzii (Square D algae), Lyngbya versicolor (blue-green) and other swimming pool algae.

ALGICIDE is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or premixed with other water treatment chemicals.

FISH AND OR WILDLIFE PRECAUTIONS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Apply this product only as specified on this label.
