NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

section 3(a)(7)(A) requires that you:

1. Submit for EPA review and approval a copy of the final printed labeling for your product before you release it for shipment. This includes all registrants of similar products to whom this data.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 15297-13."

b. Change the statement under Physical or Chemical Hazards to "Flammable. Keep away from heat or flame."

3. Submit for EPA review and approval a copy of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

See p. 2

DATE

2/1/89

4. Before you release the product for shipment, submit the following information:

- a. The chemical identity, Material Safety Data Sheet and Caswell Number for Aloe Vera color stabilized IX. The supplier may contact us directly referencing your EPA Registration Number in their response.
- b. Statement of Composition--a complete description of the manufacturing/formulation process. Describe equipment used, mixing time, temperature, etc. The manufacturing process you described is the generic from McLaughlin Gormley King Company. We need your own detailed formulation process.
- c. Storage Stability--the formulated product must be analyzed for its active ingredients at time zero and during a year of storage. The storage should be in warehouse conditions of temperature and humidity and stored in similar containers to the ones you will be using in the trade. Note: You cannot reference a study done on the concentrate you are using. This must be submitted within 15 months of the date stamped on this Registration Notice.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS
HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or inhaled. Avoid breathing mist. Avoid contamination of food. Do not get in eyes, may cause eye injury. Wash hands with soap and water after using. Toxic to fish, do not apply directly to water. Avoid treatment of nursing puppies and kittens. Follow special directions.

PHYSICAL OR CHEMICAL HAZARD: Do not use or store near heat or open flame.

PRACTICAL TREATMENT: IF IN EYES: Flush with plenty of water. Get medical attention immediately.

IF ON SKIN: Wash off with soap and water.

IF INHALED: Remove the victim to fresh air. Get medical attention if victim displays signs of poisoning.

HOLD CONTAINER UPRIGHT - SHAKE WELL BEFORE USE

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DOGS AND CATS: Cover animal's eyes with hand. Use a firm, fast stroke, to get a proper spray mist. Spray head, ears, and chest until damp. With finger tips rub into face around mouth, nose and eyes. Then spray neck, middle and hind quarters, finishing with legs and under the body last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

PUPPIES AND KITTENS: Do not directly spray nursing puppies or kittens, rather spray only along the animal's back or on your fingertips then rub the spray into the hair.

PET SLEEPING QUARTERS: Spray around baseboards, windows, door frames, wall cracks and local area of floors. If mosquitoes, gnats or flies are present, spray lightly into the air. Repeat as needed. Remove and discard old bedding. Spray new bedding for best results.
