

PM 32-15311-3

71L

ACCEPTED
July 22, 1988
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 15311-3

FOR INDUSTRIAL USE ONLY

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

71L is a bactericide and algicide for bacteria, slime and algae in open recirculating systems.

This product is used only when tower growth becomes visible.

When algae and bacteria growth become visible, dose with 2 pints of 71L per 50 operating tons. Slug feed directly into the basin of the tower and circulate for 24 hours. Bleedoff valves should be closed. Any tower treatment should be discontinued while using 71L.

This product is to be applied only through the use of a closed-system metering device.

ACTIVE INGREDIENTS:

- Sodium pentachlorophenate 8.8%
- Sodium salts of other chlorophenols 1.2%

TOTAL PERCENTAGE OF ALL INGREDIENTS 100.00%

KEEP OUT OF REACH OF CHILDREN

DANGER

PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS

The U.S. EPA has determined that pentachlorophenol can produce defects in the offspring of laboratory animals. Exposure to sodium pentachlorophenate during pregnancy should be avoided.

DANGER: Corrosive. Causes eye damage and skin irritation. Causes delayed chemical burns. Do not get in eyes, on skin or on clothing. Harmful or fatal if swallowed.

STATEMENT OF PRACTICAL TREATMENT: In case of eye contact, flush eyes immediately with plenty of water for at least 15 minutes, and get medical attention. In case of skin contact, wash with soap and plenty of water. Seek medical attention should irritation persist. Wash contaminated clothing before reuse. If swallowed, drink one or two glasses of water and induce vomiting by sticking finger down throat or by giving an emetic such as 2 tablespoons of salt in a glass of warm water. Call a physician. If inhaled, remove victim to fresh air. Get medical attention. Call a physician or Poison Control Center. Do not induce vomiting or give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: This product is a metabolic stimulant. Causes hyperthermia. Treat symptomatically.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Do not apply directly to water. Do not apply where run-off is likely to occur. Do not clean equipment or dispose of equipment wash-waters in a manner that will contaminate water resources. Apply this product only as specified on this label. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance contact your local regional office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: This product is incompatible with oxidizing materials. Decomposition of this product may form hydrogen chloride and/or chlorodibenzo-p-dioxins. This product is non-flammable.

STORAGE & DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Pesticide, spray mixture, or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides away from water supplies. Do not reuse empty container. Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers. Consult federal, state or local disposal authorities for approved alternative procedures such as limited open burning. In case of spills during shipping and/or storage wear goggles or face shield and rubber gloves and supply adequate ventilation.

The registrant has complied with all terms and conditions of the registration governing the composition of this product as approved by the United States Environmental Protection Agency under Section 3 of the Federal Insecticide, Fungicide, and Rodenticide Act.
