Do Not Get In Eyes, on Skin, on Clothing, or on Breathing Gear, Mask  
Do Not Allow Contact with Cotton or Shoes  
Keep Away from Heat and Open Flame

FIRST AID TREATMENT - POISON ANTIDOTE

Symptoms of Poisoning: Fatigue, dizziness, thirst and fever. Symptoms of poisoning develop from any type of exposure. Send For A Physician.

FIRST AID: In case of ingestion, induce vomiting by rubbing the back of the neck or by immersion in cool water.

If swallowed, take 1-2 TABLETS (PHYSICIAN) and 1-2 teaspoons of table salt in a glass of warm water. Repeat at 15-20 minute intervals. Then give 1-2 teaspoons of table salt in a glass of warm water. Treat as a FIRST AID above.

If splashed in eyes, immediately flush eyes with plenty of water for at least 15 minutes and get medical attention. If spilled on skin, immediately remove contaminated clothing including shoes, and wash skin with soap and plenty of water. If symptoms of poisoning develop, send for a physician and treat as a FIRST AID above. Discard or tan treated clothing and shoes, or clean them thoroughly before reuse. NOTE TO ATTENDING PHYSICIAN: Active ingredient is an irritant stimulant. Treat Symptomatically.

PRECAUTIONS

To avoid staining of carpets, clothing, etc., keep containers closed and do not store until cleaned. Do not contaminate water used for irrigation or food purposes. Dispose of empty containers by placing them in them and burying with wastes.

For manufacturing purposes only.

This product is toxic to fish, birds, and other wildlife. Run water from tank into water and dispose of wastes by carrying them promptly away from water courses. Keep away from farm animals.
