FAST ACTING AID FOR CLEANLINESS  
DISINFECTANT AND ODOR CONTROL

IDEAL FOR LAVATORY AND TOILET SYSTEMS.

### DIRECTIONS

**FOR TOILETS:** For best results remove water from bowl by forcing water over trap. Add minimum amount of concentrate. Wet clean bowl mop with solution, thoroughly swab sides of bowl under rim at water outlets as well as drain at bottom. Swab entire seat and cover with a fresh solution made as above. Wipe seat and cover with wet sponge. Flush toilet, rinse and mop.

**FOR URINALS:** To clean and disinfect urinals, hold mop over trap of urinal and saturate with a minimum amount of concentrate. Clean thoroughly wetting entire surface. Wipe under grooves along the sides in and around water outlet and top of urinal. Allow to remain in contact minimum of 5 minutes. Remove screen at trap, and pour in one ounce concentrate. Swab inside of pipe. Flush thoroughly.

**SEPTIC TANK SYSTEMS:** Will not affect the action or performance of septic tank or chemical system.

### DANGER CORROSIVE

Contains hydrochloric acid. Keep out of reach of children. May be fatal or harmful if swallowed. Do not breathe vapors or fumes. Protects themselves. Do not get in eyes, on face, or on clothing.

### ANTIDOTE

If swallowed call a physician immediately. Drink a quart or more of milk or magnesia or a cup of soapy water followed with milk or raw egg whites.

**EYE CONTACT:** Wash with water for 15 minutes. Get prompt medical attention.

**SKIN CONTACT:** Wipe off the acid gently. Immediately flood the surface with water, using soap freely, then cover with moist magnesia or baking soda.

**NOTE:** Empty containers and rinse with water before disposing. In case of spillage, wash area with water. Do not mix with other compounds. Avoid splashing on eyes and clothing.
