MIRACLE FOAM

BOWL CLEANER AND DISINFECTANT

DISINFECTS • DESCALES • CLEANS • DEODORIZES
Toilets, Urinals, Showers, Porcelain Enamel, Pools

DANGER CORROSIVE

KEEP OUT OF REACH OF CHILDREN
MAY BE FATAL OR HARMFUL IF SWALLOWED. SEE BACK
PANEL FOR ADDITIONAL PRECAUTIONS AND ANTIDOTES.

ACTIVE INGREDIENTS: 16.41%

Phosphoric Acid, 10.00%; Hydrogen Chloride, 6.00%;
Nonylphenoxypolyethoxyethanol-Iodine Complex, *0.41%

*Containing 20% Titratable Iodine.

INERT INGREDIENTS: 83.59%

**Contains cleaning, emulsifying agents, and corrosion inhibitors.

CONTENTS: 1 U.S. QUART • E.P.A. REG. NO. 15567-3

Mfg. by **creative**  **chemicals**

TELEPHONE (413) 283-9778 01069

KEEP CONTAINER CLOSED WHEN NOT IN USE.
MADE FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.

DIRECTIONS

CLEANING AND DEODORIZING TOILETS AND URINALS: Always use clean mop. Whip into foam by placing 3 to 4 ounces in a plastic pitcher, use mop and stir in circular motion, forming heavy foam. Do not put mop into toilet or urinal water, but use "foamed up" mop under the flush ring, allowing foam to slide slowly to other areas. Use this method on several fixtures, then return to original fixtures and scrub under flush ring working down to water line, and then to bottom of fixture.

DISINFECTING TOILETS: For best results remove water from bowl by forcing water over trap. Add 4 ounces concentrate. Wet all surfaces thoroughly.

DISINFECTING URINALS: Hold mop over trap in urinal and saturate with a minimum of 2 ounces of concentrate. Clean thoroughly, wetting entire surface. Swab cleaner in grooves along the sides, in and around water outlets, and at the top of urinal. Allow to remain in contact minimum of 5 minutes. Remove screen at trap and pour in 1 ounce of concentrate. Swab inside of pipe. Flush thoroughly.

TO DISINFECT WASH BASINS, SHOWER STALLS AND PORCELAIN OR CERAMIC SURFACES: Make a solution of 1 ounce concentrate to 6 ounces of water. Wet all surfaces to be disinfected. Allow to stand at least 5 minutes, then flush with a potable water rinse.

CLEANING PORCELAIN AND ENAMEL FIXTURES: Use only if surface is not cracked or chipped. Do not use on porcelain enamel that is not acid proof.

SWIMMING POOLS: Walls — Gutters — Floors — Nickel. For removal of soap film, mildew, scum, mineral deposits. On initial cleaning, apply material full strength to surface, allow to remain 2 to 3 minutes, then scrub with plastic or bristle brush. Then dip brush into a solution of one part concentrate and two parts water, and scrub again. Do small sections at a time, rinse carefully, and move to next area.

DANGER CORROSIVE

Contains hydrochloric acid. Keep out of reach of children. May be fatal or harmful if swallowed. Do not breathe vapor or fumes. Produces chemical burns. Do not get in eyes, on skin, or on clothing.

ANTIDOTE

If swallowed, call a physician immediately. Drink a spoonful or more of milk or magnesium or a cup of soapy water followed with milk or raw egg whites.

EYE CONTACT: Wash with water for 15 minutes. Get prompt medical attention.

SKIN CONTACT: Wipe off the acid gently, immediately flood the surface with water, using soap freely, then cover with moist magnesium or baking soda.

NOTE: Empty containers and rinse with water before disposing. In case of spillage, wash area with water. Do not mix with other compounds. Avoid splashing on nylon and cotton.
