USE DIRECTIONS

Apply this DISINFECTANT CLEANER to walls, floors and tables, chairs and bed. For heavily soiled areas, more frequent use may be required.

For Hospitals & Nurseries: 2 ounces per gallon of water.

At two ounces per gallon of water, DISINFECTANT CLEANER is effective against Pseudomonas aureus, Salmonella choleraesuis, and pathogenic fungi against the first four organisms. Performance was determined by the AOAC Fungicide Test.

At 2 ounces per gallon of water, the effectiveness of this disinfectant is shown against the following organisms:  
Brevibacterium, Enterobacter, Proteus mirabilis, Streptococcus, Klebsiella pneumoniae, Salmonella, Streptococcus, Shigella dysenteriae.

At two ounces per gallon of water, DISINFECTANT CLEANER is effective against Herpes Simplex (a meninges infectious mononucleosis agent), a sensitive of the poliovirus, a causative virus of respiratory influenza, and the Hong Kong Flu and other influenza viruses inanimate environments.

It is a violation of Federal law to produce or distribute a product in a manner which is false or misleading in labeling.

Two ounces of this disinfectant per gallon of water should be used in garbage storage areas and in areas where mold growth can cause malodors.

For Schools, Institutions, and Homes: one ounce per gallon of water.

At one ounce per gallon of water, DISINFECTANT CLEANER is effective against Staphylococcus aureus, Escherichia coli, and the athlete's foot fungus. Used above to control mold growth in hospitals were used.

Disinfection of all major surfaces in hospitals, but not in homes. This disinfectant is not for use on fabrics, leather, or other sensitive materials. For use on these materials, use a mild detergent.
