DOG FLEA COLLAR

UNIVERSAL VET 900

# DOG FLEA COLLAR

Isolated Insecticide Collar.

Kills Fleas on your Dog for 3 months.

### COMPOSITION: ACTIVE INGREDIENTS:

2,2-dichlorovinyl dimethyl phosphate ..... 19.6 %  
(this ingredient statement applies to the DDVP resin strip inside the collar).

Related compounds ..... 1.4 %

INERT INGREDIENTS: ..... 59.0 %

Total ..... 100.0 %

This Collar is a real animal collar which gives your Dog protection against Fleas. The insecticide is isolated from the skin of the animal. Since it evaporates through holes only towards the outside of the neck of the animal, it provides no direct contact between the insecticide and the animal. The Isolated Insecticide Collar does not regenerate that the housewife or children touch the insecticide, as it is only found on the inside of the Collar.

**DIRECTIONS FOR USE:** Open the envelope and fasten the Isolated Collar around the neck of the Dog. Cut off any excess band. Fleas are killed as soon as the Collar is in position, and new ones will be killed also. The Isolated Insecticide Collar lasts up to 3 months. Replace when effectiveness diminishes.

**CAUTION:** Do not open the inner envelope until ready for use. Collar is intended for use only as an insecticide generator and is not to be taken internally by the animal. Animals should not be allowed to chew on the Collar. The insecticide in the Collar is isolated with no contact direct to the skin. Thus, it generally avoids any skin irritation. Remove Collar at first sign of irritation or adverse reactions. Do not use on sick or convalescing dogs. Do not use any other pesticide on Dog while Collar is worn.

Manufactured and distributed by **ARKOVET** Laboratories,  
06100 Nice, France - EPA Reg. N° 15577.E

position, and fleas on it will be killed also. The Isolated Insecticide Collar lasts up to 3 months. Replace when the collar becomes brittle.

**CAUTION:**

Do not use on cats. Do not use on dogs with open wounds or on dogs with skin diseases. Do not use on dogs with flea infestations. Do not use on dogs with flea infestations. Do not use on dogs with flea infestations.
