Flea tag for dogs

Flea tag for dogs

Flea tag for dogs

Between 20 and 49 lbs. Isolated Insecticide Tag. Kills fleas on your dog for 3 months.

COMPOSITION: ACTIVE INGREDIENTS:

2,2-dichlorovinyl dimethyl phosphate	18.6 %
(this ingredient statement applies to the DDVP resin batch inside the tag).	
Related compounds	1.4 %
INERT INGREDIENTS:	80.0 %

Total 100.0 %

DIRECTIONS FOR USE: Hook tag to the dog's collar. Flea kill begins at once and will continue for 3 months while tag is worn. For continuous protection, replace when effectiveness diminishes.

CAUTION: Do not open protective pouch until ready for use. Do not allow children to play with tag. The tag is intended for use as an insecticide generator, and is not to be taken internally by men or animals. Do not use on sick or convalescing dogs. Do not use on whippets or greyhounds. Do not use other pesticides on dog while tag is worn. Remove the tag if any adverse reactions are observed. Some animals may be sensitive to this product.

Manufactured and distributed by **ARKOVET** Laboratories,
