**PRECAUTIONARY STATEMENTS  
HAZARDOUS TO HUMANS  
AND DOMESTIC ANIMALS  
DANGER**

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. May cause eye damage or severe skin irritation.

**PHYSICAL AND CHEMICAL HAZARDS**

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not mix this product with any other chemical or gross filth. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water if necessary.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not discharge into lakes, streams, ponds or public waters, unless in accordance with an NPDES permit. For guidance, contact Regional Office of E.P.A.

**KEEP OUT OF REACH OF CHILDREN  
DANGER**

**STATEMENT OF PRACTICAL TREATMENT**

If swallowed drink large quantities of water. Call a physician. In case of contact with skin or clothing, remove clothing and wash skin with soap and water. Do not reuse clothes until washed. In case of eye contact wash with water for about 15 minutes and consult a physician.

Manufactured for Industrial Use Only by

**TROY CHEMICAL INDUSTRIES, INC.**

17040 Rapids Road  
Burton, Ohio 44021  
(216) 834-4408

**DIRECTIONS FOR USE:**

It is in violation of a federal law to use this product in a manner inconsistent with its labeling. Troy 1626 is recommended for use in sanitizing dishes, glasses, food processing equipment and utensils including dairy and brewery equipment and utensils.

Re-use of solutions for sanitizing mechanical operations is prohibited. Prepare fresh sanitizing solution at least daily or more often if the solution becomes diluted or soiled.

**FOR DISHES, GLASSES, FOOD PROCESSING EQUIPMENT AND UTENSILS:** Dissolve 1 oz. of TROY 1626 WASH SANITIZER per 10 gal. of warm (125°F) water. This provides 100 ppm of available chlorine. Clean and rinse items prior to sanitizing. Then dip the items to be sanitized in solution and hold for 2 or 3 minutes. **DO NOT RINSE.** The same solution may be used in the feed tank in immersion or spray type machines providing 2 to 5 minutes contact time for sanitizing dishes, glasses, and food processing equipment and utensils. **DO NOT RINSE.** The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional TROY 1626 should be added, to maintain a maximum concentration of 100 ppm available chlorine.

**STORAGE AND DISPOSAL.**

Store in a cool, dry area away from direct sunlight or heat. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and discard by placing in trash collection or burying it in approved landfill area. Do not contaminate food or feed by storage, disposal or cleaning of equipment.
