

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. May cause eye damage or severe skin irritation.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Keep out of lakes, streams, and ponds. Treated effluent should not be discharged into lakes, streams, and ponds, or public waters unless in accordance with NPDES permit. For guidance consult the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT:

Strong Oxidizing Agent Mix only with water. Use clean, dry utensils. Do not mix this product with any other chemical or gross filth. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic materials matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. IN case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if possible.

STORAGE AND DISPOSAL:

Store in a cool, dry area away from direct sunlight or heat. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and discard by placing in trash collection or burying it in approved landfill area. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

CHLOR-LIZER 33 DETERGENT SANITIZER

Table with 2 columns: Ingredient Name and Percentage. Includes Active Ingredients (14.6% total) and Inert Ingredients (85.4% total).

KEEP OUT OF REACH OF CHILDREN

WARNING

FIRST AID:

If swallowed, feed gruel or cooked cereal followed by olive oil. Call a physician. In case of contact with skin or clothing, remove clothing and wash skin with soap and water. Do not reuse clothes until washed. In case of eye contact, wash with water for about 15 minutes and consult a physician.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

CHLOR-LIZER 33 DETERGENT SANITIZER Recommended for use on food processing equipment and utensils including dairy and brewery equipment and utensils. It is also recommended for use on dishes and glasses. Prepare a sanitizing solution by dissolving 4 1/4 oz. or 8 1/2 oz.

CHLOR-LIZER 33 DETERGENT SANITIZER per 10 gallons of water. This provides a solution containing 100 ppm or 200 ppm of available chlorine respectively. Clean and rinse items prior to sanitizing. Then place glasses, dishes, equipment, or utensils in solution for 2 to 5 minutes. Remove, rinse with potable water, and dry. For flat surfaces, clean to remove gross filth and heavy soil. Then spread the sanitizing solution and allow to stand 2 to 5 minutes, and then rinse with potable water.

The same solution may be used in feed tank in immersion or spray type machines providing 2 to 5 minutes contact time for sanitizing dishes, glasses, food processing equipment, and utensils. Clean and rinse items prior to sanitizing. After sanitizing step, rinse well with potable water and dry. The items are ready for use.

The sanitizing solution should be used promptly after mixing. If solution is allowed to stand or is re-used and tests show the level of chlorine has not been maintained, additional CHLOR-LIZER 33 DETERGENT SANITIZER should be added, to maintain a minimum concentration of 100 ppm available chlorine.
