

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. May cause eye damage or severe skin irritation.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish. Keep out of lakes, streams, and ponds. Treated effluent should not be discharged into lakes, streams, and ponds, or public waters unless in accordance with NPOES permit. For guidance consult the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT:

Strong Oxidizing Agent. Mix only with water. Use clean, dry utensils. Do not mix this product with any other chemical or gross filth. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic materials matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. IN case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if possible.

STORAGE AND DISPOSAL:

Store in a cool, dry area away from direct sunlight or heat. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and discard by placing in trash collection or burying it in approved landfill area. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

CHLOR-LIZER 22 WASH SANITIZER

ACTIVE INGREDIENT 28% Sodium dichloro-s-triazinetriane dihydrate 28% (Provides 15.8% available Chlorine)

INERT INGREDIENTS 72%

KEEP OUT OF REACH OF CHILDREN WARNING

FIRST AID:

If swallowed, feed gruel or cooked cereal followed by olive oil. Call a physician. In case of contact with skin or clothing, remove clothing and wash skin with soap and water. Do not reuse clothes until washed. In case of eye contact, wash with water for about 15 minutes and consult a physician.

EPA Registration No. 16833-3

Manufactured by:

ACCEPTED 16833-3 OCT 30 1980 Modrak CHEMICAL PRODUCTS COMPANY, INC. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 16833-3

3700 Clark Rd. - Gary, IN 46508

..... your 'Maintenance Headquarters'.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

CHLOR-LIZER 22 WASH SANITIZER

This formulation should not be used for commercial eggs. CHLOR-LIZER 22 WASH SANITIZER is also recommended for use in sanitizing dishes, food processing equipment and utensils including dairy and brewery equipment and utensils.

- 1) For EGG WASH dissolve 1 or 2 ounces of CHLOR-LIZER 22 WASH SANITIZER in ten gallons of warm (125°F) water. This provides 100 to 200 ppm of available chlorine respectively. For immersion treatment dip a basket of eggs in 200 ppm available chlorine solution, hold for two or three minutes, remove, and rinse with potable water.
2) For dishes, glasses, food processing equipment and utensils: Dissolve 1 or 2 ounces of CHLOR-LIZER 22 WASH SANITIZER per 10 gallons of warm (125°F) water. This provides 100 to 200 ppm of available chlorine respectively. Clean and rinse items prior to sanitizing. Then dip the items to be sanitized in solution and hold for 2 or 3 minutes. Remove, rinse with potable water and dry. The same solution may be used in feed tank in immersion or spray type machines providing 2 to 3 minutes contact time for sanitizing dishes, glasses, and food processing equipment and utensils. Rinse well with potable water and dry well. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. If solution is allowed to stand or is re-used and tests show the level of chlorine has not been maintained, additional CHLOR-LIZER 22 WASH SANITIZER should be added, to maintain a minimum concentration of 100 ppm available chlorine.
