

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. May cause eye damage or severe skin irritation.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish. Keep out of lakes, streams, and ponds. Treated effluent should not be discharged into lakes, streams, and ponds, or public waters unless in accordance with NPDES permit. For guidance consult the regional office of EPA.

PHYSICAL AND CHEMICAL HAZARDS

STRONG OXIDIZING AGENT:

Strong Oxidizing Agent. Mix only with water. Use clean, dry utensils. Do not mix this product with any other chemical or gross filth. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic materials matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. IN case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water.

STORAGE AND DISPOSAL:

Store in a cool, dry area away from direct sunlight or heat. In case of spill, flood area with large quantities of water. Rinse empty container thoroughly with water and discard by placing in trash collection or burying it in approved landfill area. Do not contaminate food or feed by storage, disposal, or cleaning of equipment

CHLOR-LIZER 55

WASH AND SURFACE SANITIZER

ACTIVE INGREDIENT 40.0%
Sodium dichloro-s-triazinetrione dihydrate.. 40.0%
(provides 19.1 available chlorine)

INERT INGREDIENT 60.0%

KEEP OUT OF REACH OF CHILDREN

WARNING

If swallowed, feed gruel or cooked cereal followed by olive oil. Call a physician. In case of contact with skin or clothing, remove clothing and wash skin with soap and water. Do not reuse clothes until washed. In case of eye contact, wash with water for about 15 minutes and consult a physician.

EPA Registration No 16833-4

Manufactured by:

3700 Clark Rd. - Gary, In 46408

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended by the registration act of EPA 1972

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

CHLOR-LIZER 55 WASH AND SURFACE SANITIZER

Recommended for use on hard (non-porous) surfaces or on dishes, glasses, food processing equipment or utensils including dairy and brewery equipment or utensils that need a strong sanitizer treatment with little or no cleaning action.

This material is very effective on table tops, tanks, vats, floors and walls. It is also very effective on dishes, glasses, metallic utensils and equipment.

Dissolve 1 1/2 oz. CHLOR-LIZER 55 WASH AND SURFACE SANITIZER per 10 gallons of water to give a solution containing 200 ppm available chlorine. After cleaning to remove gross filth and heavy soil from surface, apply the sanitizing solution to the surface to be sanitized and let stand 2 to 5 minutes. Rinse well with potable water and dry. The surface is then ready for use.

The same solution may be used in the feed tanks in immersion or spray type machines provided to 5 minutes contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse prior to sanitizing. After sanitizing step, rinse well with potable water and dry. They are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional CHLOR-LIZER 55 WASH AND SURFACE SANITIZER should be added, to maintain a use solution of 200 ppm available chlorine.
