12510 Prosperity Drive, Suite 160  
Silver Spring, MD 20904

Subject: Label Amendment – Add Water Soluble Packaging Language  
Product Name: WASH 'N BLEACH EXTRA2  
EPA Registration Number: 16930-5  
Application Date: June 3, 2019  
Decision Number: 551797

Dear Ms. Griffin:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

EPA Reg. No. 16930-5  
Decision No. 551797

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, you may contact Joseph Daniels at (703) 347-8669 or via email at Daniels.joseph@epa.gov

Sincerely,

Zeno Bain, Product Manager 33

## PRECAUTIONARY STATEMENTS:

### HAZARDS TO HUMAN & DOMESTIC ANIMALS:

DANGER - Corrosive concentrate causes irreversible eye damage. In the presence of water, concentrate (solid) causes skin burns. Do not get in eyes, on skin or on clothing. Wear protective eye wear (goggles, face shield, or safety glasses), rubber gloves and clothing (long-sleeved shirt, pants, shoes). Do not touch concentrate (container contents) with wet skin. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

## STORAGE AND DISPOSAL

Do not contaminate water, food, feed by storage or disposal:

**Pesticide Storage:** Store at normal room temperature.

**Pesticide Disposal Instructions:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State pesticide or Environmental Control agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance.

**Container Disposal:** Do not reuse or refill this container. Offer for recycling, if available, or discard in trash. Triple rinse as follows: Empty the remaining contents into application equipment or mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. shake for 10 seconds. Pour rinse into application equipment or mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure 2 more times.

### *[Optional Claims]*

Kills Bacteria\* in 10 Minute wash cycle. Low Temperature 125°F

\*Kills Staphylococcus aureus, Pseudomonas aeruginosa, Klebsiella/pneumoniae, Escherichia coli, Proteus mirabilis, Salmonella choleraesuis, Enterococcus faecium

WASH 'N BLEACH EXTRA2 is effective against the above organisms in simulated laundry conditions at 120°F wash temperature in a 10 minute wash cycle.

[For water-soluble packaging:] Remove paper label prior to use

[Now in] pre-measured water soluble tablets {"Now in" only to be used for 6 months}

## DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

*[Directions to be used with product sold in capsule and used with delivery system]*

Please contact your local service representative for information on installation and adjustment of the WASH 'N BLEACH EXTRA 2 DISINFECTANT AND BLEACHING SYSTEM.

Do not mix with anything but water. Use-levels will vary depending on type of soil, fabric, load, and amount of water. For loads up to 50 pounds (24 gallons of water), start with 2 oz/load and decrease or increase depending on results. Best results are obtained with a wash water temperature in the range of 125° - 150°F. Excellent for pre-soaking.

- Do not mix with anything but water.
- Wear protective clothing, rubber gloves, and eyewear.
- For Industrial and Institutional Use Only.
- Use only in Wash 'N Bleach Extra2 automated delivery system.

**For disinfecting & bleaching:**

1. Open WASH 'N BLEACH EXTRA2 capsule, invert capsule into WASH 'N BLEACH EXTRA2 delivery system.
2. Set delivery system to a minimum of 2-oz of WASH 'N BLEACH EXTRA2 per 24 gallons of wash water.
3. Use normal wash cycle (minimum of 10-min. @ 125°F).
4. Rinse under normal rinse cycle, only water is required.

**For additional bleaching:** 1. Increase the level of WASH 'N BLEACH EXTRA2 in the wash water to 3-oz per 24 gallons of water. 2. Use normal wash/rinse cycles.

*[Directions to be used with tablets sold in water-soluble packaging. Note: Paper label on tablet is discarded prior to use; directions for use are shown on outer container]*

Do not mix with anything but water. Use-levels will vary depending on type of soil, fabric, load, and amount of water. For loads up to 25 pounds (12 gallons of water), start with 1 oz/load and increase depending on results. Best results are obtained with a wash water temperature in the range of 125° - 150°F. Excellent for pre-soaking.

- Do not mix with anything but water.
- Wear protective clothing, rubber gloves, and eyewear.
- For Industrial and Institutional Use Only.

**For disinfecting & bleaching:**

1. After removing paper label, place WASH 'N BLEACH EXTRA2 tablet(s) directly in the wash basin of the washing machine
2. Use minimum of one 1-oz tablet of WASH 'N BLEACH EXTRA2 per 12 gallons of wash water.
3. Use normal wash cycle (minimum of 10-min. @ 125°F).
4. Rinse under normal rinse cycle, only water is required.

**For additional bleaching:** 1. Increase the level of WASH 'N BLEACH EXTRA2 in the wash water to 3-oz (three 1-oz tablets) per 24 gallons of water. 2. Use normal wash/rinse cycles.
